28. The Minutes of the Meetings of the Syndicate held on the 17th and 18th January, 1910, were confirmed.

29. Under regulations 9 and 10, Chapter V, of the University Regulations, nominations of Examiners for the Arts and Law Examinations of 1910 were confirmed.

30. With reference to Syndicate resolution No. 26, dated 18th January, 1910, the Meeting interviewed Mr. H. Y. Langhorne, and Mr. Braj Narain Gurtu, who had applied for the post of Registrar of the University, in place of Mr. A. E. Pierpoint resigned.

It was *resolved* that further enquiry be made as to the suitability of Mr. M. G. V. Cole, Principal, Khalsa College, Amritsar, who was also one of the candidates for the post, and in the event of enquiries proving satisfactory, he may be asked to come to Allahabad to be interviewed by the Syndicate: the expenses of the journey to be paid by the University.

31. Under regulation 5, Chapter IV, of the University Regulations, the Hon'ble Mr. Justice Karamat Husain was appointed a member on the Board of Studies in Indian Vernaculars in place of Shams-ul-ulama Saiyid Amjad Ali balloted out.

32. The Registrar placed before the Meeting a letter, dated 24th January, 1910, from the Director of Public Instruction, United Provinces, forwarding an application from Babu Jyotis Swarup, Managing Director, Kanya Pathshala, Dehra Dun, for permission to allow his daughter Srimati to appear at the ensuing Matriculation Examination as a candidate from the Kanya Pathshala, an institution which is not recognised by the University.

It was *resolved* that Babu Jyotis Swarup be informed that if his daughter Srimati is a regular student of the Kanya Pathshala she cannot, under the regulations, be admitted to the examination. If, however, she has merely received private tuition at the school she may be admitted as a special case.

33. The Registrar placed before the Meeting a letter, dated 15th January, 1910, from the Inspector of Schools, Kumaun Division, forwarding for the orders of the Syndicate a letter, dated 22nd December, 1909, from the Manager, Mission High School, Pauri, in which question was raised as to the powers of a Head Master for detaining students from appearing at the Matriculation Examination on grounds of

incompetency, even when the candidates had put in the required percentage of attendance.

In this connection the Registrar also placed a letter, dated 11th February, 1910, from the Director of Public Instruction, reporting certain cases of detention by Head Masters of candidates who had put in the required percentage of attendance, and asking for an expression of the opinion of the Syndicate on the general question.

After some discussion it was *resolved* that the Inspector of Schools, Kumaun Division, and the Director of Public Instruction, United Provinces be informed that the Syndicate does not approve of test examinations being held immediately before the sending in of the fees for the University examination with a view to debarring candidates from appearing at the examination, but is in favour of leaving some discretion to the school authorities on the lines of regulation 9, Chapter IX, of the University Regulations.

34. The Registrar placed before the Meeting a letter, dated 17th January, 1910, from the Head Master, Gorakhpur High School, asking for permission that Piarey Mohan Lal, a student of the X class, who attended 208 out of 232 meetings in the IX class of St. Andrews' Collegiate School, Gorakhpur, and 115 out of 157 meetings in the Gorakhpur High School may, as a special case, be permitted to appear at the ensuing Matriculation Examination.

It was *resolved* that Piarey Mohan Lal be permitted to appear for the Matriculation Examination of 1910.

35. Applications were considered from candidates, recommended by the Head Masters of Schools and Principals of Colleges for the relaxation of the rule requiring, for purposes of admission to the Matriculation and Arts Examinations, an attendance of 75 per cent of the School meetings, which they failed to put in, on account of ill-health.

It was *resolved* that of these candidates only those be admitted to the examinations of 1910 who are recommended by the Head Masters of Schools, or Principals of Colleges and whose illness is certified by a recognised medical authority.

36. The Registrar placed before the Meeting an application, dated 21st January, 1910, from Jitendra Kumar Biswas, asking for permission to appear at the Final LL.B. Examination of this University after a regular course of study for one year in a College affiliated to the University, the candidate having passed the preliminary B.L. High School, Jaunpur, enquiring whether the percentage of attendance in the case of failures at the Matriculation Examination of 1909 should be taken for two years preceding the date of examination or for one year only.

It was *resolved* that in the case of failures at the Matriculation Examination of 1909, the percentage of attendance preceding the date of examination may, for purposes of examination of 1910, be taken for one year only.

39. The Registrar placed before the Meeting a letter, dated 21st January, 1910, from the Head Master, Darbar High School, Sirohi, Rajputana, forwarding the name of one candidate from his school for admission to the ensuing

Matriculation Examination, the school not being a recognised institution.

40. The Registrar placed before the Meeting a telegram, dated 26th January, 1910, from the Principal, St. George's College, Mussoorie, forwarding an application from a candidate for admission to the ensuing Matriculation Examination, the College being no longer affiliated to the University.

Resolved, that the candidate from St. George's College, Mussoorie, be admitted to the Matriculation Examination of 1910.

41. The Registrar placed before the Meeting letters from certain Head Masters recommending that the conditions of Circular No. 14, dated 24th April, 1909, requiring a 'regular course of study' for two academical years in the case of candidates appearing for the Matriculation Examination of 1910, may be relaxed in favour of certain candidates on the ground that they were not aware of the rule before April, 1909.

It was *resolved* that in the circumstances the conditions of Circular No. 14, dated 24th April, 1909, be relaxed for the Matriculation Examination of 1910 only.

42. The Registrar placed before the Meeting the application of Agoon Lal, a candidate for the Matriculation Examination from the District School, Mainpuri, whose age on the date of the commencement of the ensuing examination would be less than 16 years by 10 days.

It was *resolved* that the candidate cannot be permitted to appear for the Matriculation Examination of 1910.

43. The Registrar placed before the Meeting the case of a candidate for the ensuing Matriculation Examination from the District School, Shahjahanpur, whose percentage of attendance by time of examination will be short of four meetings, the short percentage being due to X class being split up into two sections late under departmental orders on account of which the name of the student could not be enrolled earlier.

It was *resolved* that in the circumstances the candidate be permitted to appear for the Matriculation Examination of 1910.

44. With reference to Syndicate resolution No. 24, dated 17th January, 1910, the Registrar placed before the Meeting the examination fee receipt for appearing in the B.Sc. Examination of 1909, granted to Krishna Kumar, formerly a student of the St. John's College, Agra, and now reading in the Meerut College.

It was *resolved* that the student be asked to show cause why he should not be prevented from going up for the B.Sc. Examination of 1910 until such time as he shall have paid up all dues owed by him to St. John's College, Agra.

45. With reference to Syndicate resolution No. 215 (2), dated 19th November, 1909, the Registrar placed before the Meeting the report of the Law School Committee regarding the application of Mr. Thorp for the post of Principal, University School of Law.

Resolved, that the report of the Law School Committee be referred to the Faculty of Law for favour of opinion.

46. The Registrar placed before the Meeting a letter, dated 7th February, 1910, from the Secretary, Cantonment Committee, Neemuch, forwarded and recommended by the

Inspector of Schools, Nerbudda Circle, requesting that a candidate from the Cantonment High School, Neemuch, may be admitted to the ensuing Matriculation Examination as a school candidate from the school, as the Cantonment School was worked on the same lines as the University requires, the only formal defect being that it was not recognised by the University.

It was *resolved* that the Secretary, Cantonment Committee, Neemuch, be informed that as the Cantonment High School, Neemuch, was not a recognised institution, no student from that school could be admitted to the Matriculation Examination of 1910.

47. The Meeting considered the report of the Sub-Committee appointed by Syndicate resolution No. 49, dated 10th March, 1909.

APPENDIX B.

*Report of the Sub-Committee appointed under Syndicate Resolution
No. 49, dated 10th March, 1909.*

1. The Government of the United Provinces by its letter No. 77/XV-394 A-2, dated 19th January, 1906, granted a sum of Rs. 20,000 per annum for four years towards building an University Library. On 12th March, 1906, the Senate of the University appointed a Committee—

- (a) to select a suitable site for a University Library and report thereon to the Syndicate ;
- (b) to formulate a scheme for the application of the grant made by the Government towards the building of such a library and report the same to the Syndicate.

2. The Committee invited the Fellows of the University to favour them with their suggestions regarding the scheme, and proceeded to consider the various proposals which had been brought forward. The Sub-Committee was strongly of opinion that the University Library and the other University buildings, such as the Senate Hall, the Registrar's Office, etc., should be located in one place, and that plans for their buildings (including the library) should be obtained in the first instance. The Committee also considered the various sites which had been suggested for the location of the University buildings, and recommended that the Government should be approached to ascertain whether the site occupied by the Police Training School and the old Civil Hospital could be made available for the said purpose.

3. The report was considered by the Syndicate at its Meeting held on the 19th November, 1908, and in accordance with the recommendation of the said Committee the Registrar was authorised to address the Government to ascertain whether the site referred to above could be made available, and to request the Government to permit the P. W. D. to draw up plans and estimates for the University Library and other University buildings as a whole.

4. The Government in reply to the said enquiry intimated that the site above referred to was not available. On receipt of this reply the Syndicate by resolution No. 49 of 10th March, 1909, appointed this Sub-Committee to take up the matter and to address the Government on the subject.

5. Taking advantage of the presence of the Hon'ble the Vice-Chancellor and of two of the members of this Sub-Committee at Lucknow on the 27th March, 1909, His Honour the Chancellor was pleased to discuss the whole subject and to carefully examine the financial position of the University. The question of the site was next considered, His Honour was of opinion that the site No. 8, Church Road, which had been purchased by the University was sufficient and suitable for University buildings, and was pleased to suggest the desirability of taking some definite steps towards the erection of these buildings. The Director, Public Instruction, was authorised to ascertain from Sir Swinton Jacob whether he (Sir Swinton) could undertake to prepare the plans of the buildings.

6. The Sub-Committee met at Allahabad on 8th April, 1909. After considering the possibility of acquiring sites other than the Church Road site, and in view of the almost insuperable difficulties in acquiring them, it was unanimously of opinion that the buildings should be erected on the Church Road site. The result of the deliberations of the Sub-Committee are embodied in a report, dated 8th April, 1909, then submitted. (Appendix C.) As directed in resolution No. 49, dated 10th March, 1909, they also addressed the Government a letter, dated 4th May, 1909, on subject of the preparation of the plans and estimates of the University buildings.

7. In July, 1909, His Honour the Chancellor inspected the Church Road site in company with the members of the Sub-Committee then present in Allahabad. It was decided to request Sir Swinton Jacob who had kindly undertaken to prepare the plans to inspect this said site before drawing them up. The Registrar was instructed to obtain from the other Indian Universities the plans of the buildings possessed by them.

8. The Sub-Committee met on 21st August 1909, 30th September, 1909, and 23rd November, 1909. They are much indebted to Mr. Oertel who attended all these meetings for the very valuable advice and assistance he has rendered and to Sir Swinton Jacob

who was kindly present at the first and the last of these Meetings. With the concurrence of Sir Swinton Jacob the Committee finally selected the Church Road site for the University buildings. The proceedings of the Committee will appear from the minutes of the Meetings which have already been submitted. (Appendices D, E and F.)

9. Sir Swinton Jacob has prepared plans for—

- (1) the Senate Hall and the Registrar's office,
- (2) the University School of Law, and
- (3) the University Library, which are now on the table.

10. On 17th January last His Honour the Chancellor was pleased to lay the foundation-stone of the University Senate Hall. A report of the proceedings as published in one of the local Dailies is annexed hereto. (Appendix G.) The speech made by him on the occasion of the ceremony concisely sets out some of the main features of the buildings proposed to be erected.

11. The proposed buildings are roughly estimated to cost about ten lakhs. The money available at present is :—

- (a) Rupees 2,50,000 as specified in the minutes of the Sub-Committee, dated 8th April, 1909.
- (b) Rupees 1,00,000 being a further grant made by the Government, U. P., for the purpose.
- (c) Rupees 25,000 granted for the purpose by the Government of Central Provinces.
- (d) Rupees 50,000 being the donation of the Hon'ble Rai Nathi Mal Bahadur, C.I.E.
- (e) Rupees 10,000 being the donation by His Highness the Raja of Tehri.

Total Rs. 4,35,000.

Kuar Kirat Singh of Kashipur and Bhaiya Ganga Bakhsh Singh, Rais of Balrampur, have already remitted Rs. 101 and Rs. 50 as their donations in aid of the scheme.

His Honour the Chancellor has expressed a hope that the Ruling Chiefs in Central India and Rajputana and the leading landholders and raises of the United Provinces will come forward with subscriptions for the construction of these buildings.

12. The Sub-Committee again met on 10th February, 1910, to consider the revised plans of the University Law College and the University Library prepared by Sir Swinton Jacob.

13. The Sub-Committee would suggest—

- (a) that the plans of the University buildings prepared by Sir Swinton Jacob for erection on the site of No. 8 Church Road, be approved ;
- (b) that the recommendations made by the Sub-Committee in its minutes of the proceedings, dated 8th April last, be accepted ;
- (c) that the Government be formally asked to permit of the moneys referred to in the said minutes being spent in constructing University buildings ;
- (d) that His Honour the Chancellor be thanked for—
 - (i) the further grant of one lakh made by him ;
 - (ii) permitting the estimates being prepared free of cost and the buildings constructed by the P. W. D. free of all charges for supervision ;
 - (iii) for his very kindly undertaking to help in the collection of donations from the leading residents of the United Provinces and for the very great interest he has evinced ;
- (e) that the Government of Central Provinces be thanked for the donation of Rs. 25,000 ;
- (f) that special thanks of the Syndicate be conveyed to the Hon'ble Rai Nathi Mal Bahadur, C.I.E., the Hon'ble the Raja of Tehri, Kuar Kirat Singh, Bhaiya Ganga Bakhsh Singh, for the donations made by them respectively ;
- (g) that the cordial thanks of the Syndicate be conveyed to Mr. Oertel and Sir Swinton Jacob for the very great help and assistance rendered by them ;
- (h) that a committee be appointed to invite and collect donations for the University buildings, and in co-operation with His Honour to take all such steps as may be necessary for the said purpose.

APPENDIX C.

*Report, dated 8th April, 1909, of the Sub-Committee appointed by
Syndicate resolution No. 49, dated 10th March, 1909.*

PRESENT:

The Hon'ble Mr. Justice Richards, *Vice-Chancellor*.

The Hon'ble Sir George Edward Knox.

The Director of Public Instruction (Mr. A. Venis).

The Hon'ble Rai Sundar Lal Bahadur.

Dr. E. G. Hill.

I.—The Committee considered the possibility of acquiring other sites than the Church Road site. In this connection a letter from Dr. Ewing was read and discussed.

The Committee were of opinion that (with the exception of Durbhanga Castle) there were objections to each of the sites mentioned in the letter and almost insuperable difficulties in acquiring them. The proposal to acquire Durbhanga Castle had already been dropped by the Government. The Committee therefore were unanimously of opinion that the buildings should be erected on the Church Road site.

II.—The Committee considered the funds at the disposal of the University. They are as follows:—

- | | |
|-----------------------|---|
| (I) 1. Rs. 22,281-7-4 | being the amount of Rs. 20,000 granted for office building and the interest accumulated thereon. |
| 2. Rs. 83,960-0-0 | being the amount of the grant for the University Library of Rs. 80,000 and interest thereon. |
| 3. Rs. 10,128-9-0 | the amount left in hand out of Rs. 35,000 granted for purchase of a site for University buildings and interest thereon. |

Total Rs. 1,16,370-0-4.

(II) In addition to this there was the grant of Rs. 1,00,000 for the University School of Law, which was invested at 4 per cent. in fixed deposits which brings Rs. 4,000 a year for the support of the Law School, and which at present was not self-supporting.

(III) The reserve fund of the University consisting of :—

(a) Rs. 96,500-0-0 in Bank deposits.

(b) Rs. 34,000-0-0 invested in Government Promissory notes.

The Vice-Chancellor informed the Committee that His Honour would probably consent to remove all restrictions imposed by the Government regarding the objects on which the amounts granted by it were to be spent.

It was *resolved* that the Sub-Committee recommend to the Syndicate to spend on buildings the following sums :—

Rs. 1,16,370 specified (under head I),

Rs. 1,00,000 the grant for the Law School (under head II),

Total Rs. 2,16,370

and draw on reserve fund to about Rs. 34,000, *i.e.*, total Rs. 2,50,000, on the understanding that the Law College be allowed to draw on the University reserve fund to extent of an annual deficit not exceeding Rs. 4,000.

III.—A letter from Sir Swinton Jacob in reply to the Director of Public Instruction was read, in which he expressed his willingness to draw up plans.

The Committee *resolved* that Sir Swinton Jacob should be asked to inspect the site before drawing up plans in order that he may make himself fully acquainted with the site, and also the present and future requirements of the University.

IV.—*Resolved*, that the immediate needs are :—

1. an Examination Hall,
2. Library (including Law Library),
3. Offices,

and that for the present the Law College be held in the examination hall.

That the next most needed buildings would be:—

- (1) four large lecture and examination rooms, each to hold about 250 students;
- (2) a building for the University Law College (or School as it is now termed);
- (3) a Senate Hall for the University convocation and meetings similar to the Senate Halls of the Universities of Calcutta, Bombay, Madras and the Punjab.

APPENDIX D.

REPORT OF BUILDING SUB-COMMITTEE,

Dated Allahabad, 21st August, 1909.

*Proceedings of Sub-Committee appointed by the Syndicate Resolution
No. 49, dated 10th March, 1909.*

PRESENT :

The Hon'ble Sir George Knox.

The Hon'ble Rai Sundar Lal Bahadur.

The Rev. Dr. Arthur H. Ewing.

Dr. E. G. Hill.

Sir Swinton Jacob.

Mr. F. Oertel, Superintending Engineer.

The Note on University Buildings prepared at the last meeting was discussed, together with the site plan showing the four proposed buildings arranged round a quadrangle, *viz* :—

The University Hall facing the Church Road (double story)

The Law School on the left (single ,,)

The * Pedagogy wing opposite on the right (single ,,)
and

The University Library at the back .. (double story)

It was considered that the quadrangle arrangement had certain disadvantages and brought the main building too close to the Church Road.

A better arrangement would probably be to have only three buildings, all double storied, and all facing the Church Road, which is the only road from which they will be seen to advantage.

The University Hall, with a Clock Tower in the middle, is to occupy the centre of the site; to the left and a little further back will be the Library Building; and corresponding to it, on the right

* *N.B.*—Throughout these proceedings the words "Pedagogy wing" have been used without any intention that they should be earmarked for Pedagogy. The University Building is to provide accommodation for any subject into which the University may develop hereafter.

will be placed the School Wing, with the Law School on the ground floor and the Pedagogy School on the first floor.

The Main Building to be not less than 100 yards distant from the Church Road. This building will be the first to be constructed, and full drawings should be prepared for this.

The next in urgency is the School Wing, and lastly, the Library Building.

By this arrangement there will be no necessity to interfere with the existing tiled building, which is an important point, as it will considerably supplement the available accommodation, and will only make it necessary for the present to erect the Main Building. This will provide sufficient accommodation for Convocation Hall, Examination Rooms and Law Classes, and the rest can go into the existing building, which need not be removed until the School Wing is completed.

The accommodation desired for the Main Building is to be based on the plan of the Senate Hall in Madras, which covers a ground area of about 26,400 superficial feet.

As the Muir Central College is built of stone, it was considered, if possible, the University Building should also be built of the same material.

The original Muir College buildings cover 32,382 superficial feet and cost about 9 lakhs to construct, which is at the rate of nearly Rs. 28 per superficial foot.

The proposed University Buildings need not be so costly as the Muir College, but even if the cost does not exceed Rs. 20 per superficial foot the Main Building above will probably cost over 5 lakhs.

The following points were decided on as regards the accommodation in the Main Building :—

The great Hall may be 130' × 60', which would seat about 1,200 people, on occasions of Convocation; and as the space is further increased, by the galleries above, the Committee consider that this will meet all future requirements. If the Architect sees his way to lengthening or increasing this Hall in any other way, there is no objection : rather the opposite.

So long as the Hall is large enough for Convocation, that is all that is needed ; although it may not be large enough for examination purposes.

For the extra space needed on the latter occasions can be easily met by putting some of the candidates to be examined into other adjacent rooms, such as the Senate and Syndicate meeting Halls.

The Committee consider that at least 25 superficial feet would be required for each examinee, and at this rate the proposed Hall will only seat about 300. If this number is ever exceeded, the other rooms must be used.

The School block, when it is built, will provide further rooms for examination.

As regards A (2) Daïs, in the Note on University Buildings already referred to, the Daïs in the Convocation Hall may be a moveable one.

The rooms referred to in A (3), B (2) and B (3) as Committee, Senate, and Syndicate meeting rooms will never be used at the same time, and although the Committee think them necessary, a certain amount of latitude can be permitted to the Architect in regard to the position, size, etc.

As regards A (4), the Office may be either one long room or two smaller adjoining rooms. There are at present four clerks working in the University Office, but it is expected that this number will soon have to be increased to six.

As regards A (5), this calls for no special remark, except that the Store rooms for Books and Stationery might perhaps be located in a basement below the Assistant Registrar's room, the two being connected by a spiral staircase and a Book Lift which might both be continued up to the Registrar's room on the first floor.

As regards A (6), the power for the Lift may be supplied by the Electric Installation, which it is proposed to have for the University and some adjacent buildings, such as the Pioneer Press, etc.

B (1) will be cut out as the Convocation Hall and the Examination Hall will be one and the same.

As regards the Registrar's Room B (4), this is to be on the first floor and immediately over the Assistant Registrar's room and connected with it by a Book Lift, and, if possible, by a spiral staircase.

As regards the Tea Room B (5), this might be placed over the Porch.

The following extra points were discussed at the meeting :—

Storage Room to be provided in the basement wherever light and ventilation can be properly arranged.

A Waiting Room for visitors, with a Lavatory (it might also serve as a Robing Room), to be provided in some convenient position.

A Clock was considered a necessary addition to the University Buildings.

An Organ was also considered desirable for the Convocation Hall

A room for the Vice-Chancellor was also suggested, but not considered absolutely necessary.

UNIVERSITY SCHOOL.

This building is to contain the Law School and the Pedagogy School with two Science Laboratories and some additional Examination and Lecture halls. It was proposed originally to locate these in two separate buildings, and the accommodation was fixed accordingly; now that it is proposed to put them both in one building, it will be necessary to reconsider this, and, if possible, to economise in room, as the Pedagogy School may not require so much accommodation as the Law School. In this case some of the Law rooms might perhaps be placed on the first floor.

The size of the Law Library is given as $35' \times 30' = 1,050$; it may be useful to compare this with the size of the Library room in the Allahabad High Court, which is $44' \times 23\frac{1}{2}' = 1,034$.

The two Lecture Rooms for the Law School must be large enough to hold 150 students each. A suggestion was made to have them $45' \times 30'$ instead of $50' \times 25'$, and to have a moveable partition, lifting vertically between the two. This arrangement is said to have been adopted in the Bombay University and to work well. A further suggestion was made that there should be two small rooms for water and refreshments, one for Hindus and one for Muhammadans.

LIBRARY BUILDING.

As this is not likely to be erected for some time to come, it was not considered necessary to discuss it in detail. This being

always borne in mind that it is advisable to have the Library on the ground floor and the reading rooms on the upper floor.

The site and adjacent ground was inspected with a view to a road being constructed in the near future to connect the proposed University Buildings with the Muir College.

It was agreed that immediate steps should be taken to acquire all the open ground in that direction including the mango grove to the west of the University Site and certain open fields, between it and the Muir College, with a view to having a continuous Park like strip of land connecting the two establishments. This would necessitate the removal of a certain number of Bazaar houses situated within this area.

The ground at each side of the proposed new road up to a certain distance might be laid out as a Park and the rest, if not required for the Law Hostels or similar purposes, be let out for cultivation.

The Committee considered it desirable to take up all the available ground in the immediate vicinity without delay, so as to secure sites for future extensions, and to prevent the erection of undesirable buildings.

The Committee also noticed that there were some out-houses belonging to the C. M. S. close to the road separating the University Site from the C. M. S. Hostel. These are unsightly, and it would be desirable to have them removed ; adequate compensation being given.

The road between the University Site and the Oxford and Cambridge Hostel is little used, except on Sundays, and even then by a few persons only. It would be well to try and get this made a University Road with right of way reserved to the public on Sundays.

Site plans showing the two alternate proposals for the University Buildings are attached to these proceedings.

APPENDIX E.

*Proceedings of the University Buildings, Sub-Committee, dated 30th
September, 1909.*

PRESENT :

The Hon'ble Sir George Knox.

The Hon'ble Pandit Sundar Lal.

Mr. A. Venis.

Mr. F. O. Oertel.

The pencil drawings of Sir Swinton Jacob's design for the Senate Hall were considered and discussed, together with an explanatory note by Sir Swinton, a copy of which is attached to this.

It was decided with the approval of H. H. the Chancellor that Sir Swinton be also asked to prepare designs for the two other buildings, *viz.*, the University School and the Library, with a view to reproduction of all the designs in book form, as a ready means of appeal for funds. Rough estimates of the probable cost should accompany the designs, so that possible donors might know what each building or part of it (such as the Clock Tower) would cost.

In addition to the three main buildings, designs would also be required for certain subsidiary buildings, such as a Law hostel, a guard house for a police guard, a latrine on the dry earth or some similar system, a separate urinal, a stable with carriage-shed for visitors. It might possibly be arranged to share this latter with Trinity Church. As regards servants' quarters it was generally considered that it would be best to keep resident servants out of the grounds in the immediate vicinity of the University buildings, and to erect, if necessary, separate lines for them in some convenient spot on the ground to be taken up for the connecting road to the Muir College, where the Law Hostel is also to be located.

Sir Swinton Jacob's designs for the Senate Hall were generally approved of. The proposed accommodation was discussed in detail, and certain suggestions were made as set forth below. The numbers refer to those in Sir Swinton's plans and note.

GROUND FLOOR.

4. The moveable dais to be placed within the large archway under the bridge at one end of the main hall. The three arches within the two large archways to be omitted.

7. The three rooms marked 7 on the plan to be made into one by dividing arches. The stairs in room to be omitted, as the main stairs are so near. A book lift and speaking tube to be given to Assistant Registrar's room above.

8, 9, 10 to be three separate spare rooms, without lift or stairs. One of the rooms to be reserved for the Chancellor. Doors to be given between the rooms.

11. No provision is made for ladies. One of the main staircases may be omitted and the room on the ground floor utilised for a ladies' retiring room. Of the two end lavatories marked 11, the one on the south side to be reserved for Europeans and the other on the north for Indians. Urinals to be provided.

13 and 14. Only one main staircase and lift is needed near the Registrar's office, the corresponding one to be converted into a ladies' retiring room with an entrance lobby and two little rooms of it, one for European and the other for Indian ladies.

17 and 17½. The two front turrets to be utilised as extra staircases to the first floor and to a front basement which it is proposed to give under the whole length of the front verandah, except under the clock tower. The proposed basement at the back of the building is approved of, except that the two corridors behind rooms 7, 8, 9, 10 may be omitted from the basement. The rear basement will be approached only by the steps under the main stairs near the office and will be used for storage of boxes, books, papers and records, etc. The two front basements will be used for furniture and any other stores not connected with the Registrar's office.

The porches at the two ends of the building are approved of. The width of the end verandahs, on the north and south sides, may be increased from 10 to 12 feet so as to throw out the end façades further in front of the lavatory wings and to increase the size of the room above.

FIRST FLOOR.

18. The two staircases in the front turrets to go right up to the upper roof and the narrow steps in the front verandah to the clock tower to be omitted.

20. The galleries at each end of main hall to take the shape of bridges across the large archways, the three arches below being omitted. Heavy folding curtains may be suspended from the galleries.

23. The width of the end verandahs below being increased from 10 to 12 feet, these end rooms will become larger and may be further increased in size by omitting the cross arches.

The room on the south side may be reserved for the Chancellor and Vice-Chancellor, and used on occasions as a waiting and robing room, and the room on the north side can be used as a tea room.

24 and 28. These will be three spare rooms with doors in between to be used as needed for committees, *viva voce* examinations, etc. The three corresponding rooms below and the two end rooms No. 23 will also be available for committees, etc., when not otherwise engaged.

26. Circular stairs not needed.

29, 30, 31. No. 29 will be given to the Assistant Registrar, and 30 and 31 to the Registrar. The safe to be in room 31 and to be made 24 inches clear width inside. A book lift and speaking tube to be given between the office and the Assistant Registrar's room. The book lift not to go down to the basement.

32. Both lavatories on the first floor to be fitted up in European style.

33 and 34. Lift and stairs to be given only near the office rooms and the tower on the other side to be made into a spare room, which can be used as a waiting-room when room 23 on the south side is otherwise engaged.

Skylights.—No skylights are needed in roof of main hall, but they may be given in the two side halls. The clear story windows should be made as large as possible, as they are the main source of light, especially in the main hall.

Electric lights and fans.—No fixed electric lights are needed in the building, but a few moveable lights may be given in the office

and Registrar's rooms to be switched on to the fans when required. No electric fans are needed for the main hall, but they should be provided for the two side halls, as these will be used as lecture rooms during the hot weather.

UNIVERSITY SCHOOL.

The following accommodation is to be provided for this building:—

Ground Floor.—The Law School is to be placed here with the following rooms:—

1. Two large lecture rooms, about 45' × 30', to hold 150 students each. The two rooms need not necessarily communicate.
2. One common room for the students about 750 square feet area, any shape, with two small lavatories, and two small eating rooms attached for Hindus and Muhammadans.
3. One room for Principal not less than 400 square feet area.
4. Two rooms for Professor, Assistant Professor, each of about the same area.
5. One office room for two clerks slightly less in area.
6. Two tutorial rooms about 25' × 20' each.
7. One or two more spare rooms.

First Floor.—Similar accommodation to be given on this floor for the pedagogy classes and practical demonstration.

UNIVERSITY LIBRARY.

The ground floor to contain the books and staff, and the first floor the reading rooms. The library on the ground floor to be arranged in one or more rooms, as found convenient. The following further rooms to be given on the ground floor:—

One room for the Librarian.

One room for the Assistant Librarian.

One room for two clerks.

One room for two chaprasies and two daftris to work in book-binding, etc.

The first floor to be entirely given up to reading with one large common room and two or more smaller reading rooms. All these rooms must be well lighted and book lifts given to connect the two floors.

The library building to be about the same size as the University School so as to balance it, but the architect not to be tied down to repeat the same shape. In fact, the Committee would, on the whole, prefer a special design more characteristic of the still hall or cloistered ease, of a library.

G. E. KNOX.

ALLAHABAD UNIVERSITY.

It was decided at the meeting of the Building Sub-Committee held at Allahabad on the 21st August, 1909, that the University Hall, which is the Main Building, will be the first to be constructed and drawings were required for this first.

The following drawings accordingly have been prepared, in pencil only at present, and are submitted for approval :—

- Sheet { 1. The plan of the ground floor.
 No. 1. { 2. The plan of the upper floor.
 No. 2. 3. Front elevation.
 No. 3. 4. Side elevation.
 No. 4. { 5. Longitudinal section.
 6. Cross sections.

An Index Plan showing the position and area required for the building is also submitted.

The pencil drawings are on four sheets, to a scale of 16' 1" when approved ; all these plans will be prepared on the scale of 8' 1".

The accommodation provided is as follows :—

17½. Spare rooms (2)	12' x 8'

The basement comprising an area of about 5,280 square feet is along the whole length of the building, on the west or rear side; under rooms Nos. 7, 8, 9 and 10 and under the verandah connecting them, where they can be well lighted and ventilated. This basement area can be increased, by making it along the front and sides also, if desired.

The plinth has been made 4½ feet high to admit of this, as well as to suit the size of this large building.

The basement will be found very useful for* storing boxes, records, Examination desks and seats, and spare furniture.

An entrance hall is considered advisable near the front entrance. Seats can be provided on each side, which will be found convenient.

The side porches can be omitted if not considered necessary.

Upper Floor—

18. Spare rooms for peons or any other purpose,	12' x 8'
19. Side galleries in Main Hall 130' x 12' ½"

31. Professors' Retiring Room	$22\frac{1}{4}' \times 16' 1\frac{1}{2}''$
32. Lavatories	$21' 1\frac{1}{2}'' \times 11' 1\frac{1}{2}''$
33. Lifts (2) from the basement	$6' \times 6'$
34. Main Stairs (2)	5' wide.

The Main Hall is 50 feet high to the beam of the truss and is well lighted and well ventilated; skylights can be put in the roof if desired, but it is thought that the side lights on the ground floor, also in the galleries and along both sides and at the ends will be sufficient.

It will be noticed that the direct rays of the sun are everywhere excluded, by verandahs or sunshades.

For *Convocation* purposes the Main Hall provides the following:—

Accommodation (omitting $60' \times 20' = 1,200'$ allowed for Dais)

Main Hall (7,800 — 1,200)	=	6,600
Side Galleries, $2 \times 130 \times 12'$	=	3,120
End .. $2 \times 36 \times 12'$	=	1,584

Total .. 11,304 sq. ft.

There are projecting balconies in the galleries, supported by ornamental carved stone brackets; these and the galleries at the ends of the Main Hall form good positions, to view the floor of the halls below.

An organ can be placed in one of these end galleries, if ever required.

For Examination purposes, allowing 25 sq. ft. for each student, the Main Hall ($130' \times 60'$) = 7,800 square feet will accommodate 312 students.

If extra accommodation is required—

Room No. 5 ($52' \times 36'$) = 1,872 sq. ft.

will accommodate 74 ..

Room No. 6 ($52' \times 36'$) = 1,872

will accommodate 74 ..

Total .. 460 students.

All these rooms are arranged [so that there is free access on all sides. Rooms Nos. 5 and 6 can be screened off from the Main Hall or left open.

The roofs of rooms Nos. 5 and 6 are flat-terraced, and are subdivided by arches into three bays to admit of short lengths of rolled steel beams—a skylight resting across the two centre arches would give a good top light.

The area of these rooms (52' x 36') is so large that it is not advisable to have an upper story over them. The height from floor to roof is 42 feet, and with the Main Hall will form a grand vista from either end.

Rooms Nos. 8 and 9 are connected by an arched opening, in the wall between them, and are set apart for the Assistant Registrar and his office.

Underneath are similar rooms in the basement, for boxes or books, above are similar rooms for the Registrar.

A circular light staircase in one corner connects three floors, and a book lift and speaking tube add to the completeness of the arrangement.

An iron safe extending the full length of the room adjoining the Registrar's room (on one side of room marked No. 25) provides for keeping confidential papers, etc. The length is 22 feet, and it can be subdivided and made any width desired. In the drawing it is shown 2 feet wide.

There are two main stairs, 5 feet wide, one at each end of the verandah of the Main Hall, on the west side; the well in the centre 6' x 6' can be utilised for a lift in one or both places.

These stairs rise from the basement to the gallery on the upper floor.

The three rooms, each 22' x 16' at the south-west end marked No. 7, are all connected, and form ample accommodation for the clerks. A small staircase gives access to the basement below these rooms for keeping boxes, stationery, office records, etc.

Two Lavatories have been provided one at each end of the building, each provided with two washing basins and two cabinets. Similar Lavatories are provided above them, on the first floor, making eight cabinets in all.

A small separate covered staircase is provided for the use of attendants at each place.

About half way up (as the height between the two floors is 20 feet) it is proposed to provide small rooms, each would be 22' \times 11' and 8 feet high, for keeping small stores or any other purpose.

The small rooms marked No. 17 on the ground floor can be used for keeping water, or for peons; a small staircase in each gives access for servants to the upper room.

Room No. 29 (22' \times 16') on the upper floor can be set apart for the Vice-Chancellor. Room No. 30 can be connected with this if desired or set apart as a waiting room.

Room No. 31, it is proposed to set apart as a retiring room for Professors.

The two rooms marked No. 23, over the side porches, are spare, can be used as tea rooms or for any other purpose.

A Clock Tower has been provided, as desired, and marks the centre of the building. The height of the centre of the dial is 100 feet from the ground. Steps are provided to give access to the clock room, and an opening to admit access to the outside face of the dial.

A circular hole should be provided in the floor or walls to allow for the weight and chains.

The total ground area according to the plan is 33,022 sq. ft.

FOUNDATION-STONE LAYING OF THE
SENATE HALL.

SPEECHES BY THE CHANCELLOR AND VICE-
CHANCELLOR.

Sir John Hewett, the Chancellor of Allahabad University, on Monday afternoon, laid the foundation-stone of the Senate Hall, which is the first of a number of handsome University buildings to be erected according to elaborate plans prepared by Sir Swinton Jacob on the site adjoining Church Road, Allahabad, bought some years ago for the purpose. A large gathering attended the ceremony which was performed in a very impressive manner. Three large *shamianas* had been erected around the spot where preparations had been made for the laying of the stone. In the central one was placed a dais on which were seats for the Chancellor (Sir John Hewett) and the Vice-Chancellor (Mr. Justice Richards), whilst behind were seats for the Senate, Fellows and others prominently associated with the University. Ample accommodation for the public and students was provided in *shamianas* on each side and seats in the open. Near the foundation-stone illustrations of Sir Swinton Jacob's beautiful plans were displayed, and they were much admired. The band of the 1st Middlesex Regiment was in attendance and a guard-of-honour was provided by the 12th Cavalry. Upon the arrival of the Chancellor a procession was formed near the University offices of Fellows and others connected with the University, all attired in their academic robes, which passed down a carpeted pathway, on each side of which the guard-of-honour was formed up. Those present in the procession included the Bishop of

Lucknow (Dr. Clifford), the Chief Justice (Sir John Stanley) and other Judges of the High Court, and many other prominent gentlemen, whilst the rear was brought up by the Chancellor and Vice-Chancellor (the Hon. Mr. Justice Richards), also wearing their robes. The whole of the gentlemen having taken their places, the Registrar (Dr. Ewing) requested the Vice-Chancellor to explain the object of the gathering.

SPEECH BY THE VICE-CHANCELLOR.

The Vice-Chancellor then delivered the following speech :—

“ Your Honour, Members of the Senate, Ladies and Gentlemen,—We meet to-day to lay the foundation-stone of the first building of the University of Allahabad.

“ The University was established in the year 1887. It serves a territorial area and population second only to the Calcutta University.

			Sq. miles.	Population.
Calcutta has an area of	4,84,858	96,115,863
Allahabad..	4,52,830	80,944,432
Madras	2,90,739	62,909,633
Bombay	1,96,924	27,420,901
Punjab	3,60,962	30,700,346

“ Our educational jurisdiction extends over the United Provinces, the Central Provinces, Central India and Rajputana.

“ All the Universities I have named, except our own, possesses at least a Senate Hall. Provision has recently been made for the erection of an Examination Hall for the use of the Calcutta University, together with Laboratories for Science examinations. A new Hall has been provided at the Punjab University and Madras and Bombay have their Libraries.

" At the present moment our University has not a single University building. When recently addressing the Senate at Convocation I referred to this reproach and the urgent necessity for University buildings. I was aware even then that no one had the removal of the reproach more at heart than Your Honour, but I hardly hoped that I would be able to-day to request you to lay a foundation-stone, more particularly as I have always maintained that our University buildings should be worthy of our University.

" I need not refer to the design of the building, the foundation-stone of which you have so kindly consented to lay, or to the designs of the other buildings, which I hope soon may be erected, because when consenting to lay this stone you were pleased to accede to a further request of mine, namely, that you would yourself tell the Senate and this meeting what has already been done in connection with our University buildings and what may be done in the near future. This statement by Your Honour will involve a reference to the designs. The Building Committee know with what sympathy you met us at Lucknow when we went to consult with you, and how practical and to the point was every suggestion you made. At the date of that meeting the outlook was not very bright. We possessed little more than the present site. The fund at our disposal did not seem to justify even the preparation of designs. After the Lucknow meeting we were encouraged to approach Sir Swinton Jacob to prepare the designs we see to-day. They have been carefully considered, but any one who examines them will see that they are the designs of buildings which cannot be erected without the expenditure of a large sum of money. I feared that we would have to wait before even a commencement was made. It was indeed a pleasure to myself and the other members of the Building Committee to receive information from Your Honour which we thought

justified us in approaching you and taking the step we take to-day. We know well your deep interest in education and how you have studied the conditions of education in this country as a member of the University Commission. We may indeed count ourselves fortunate in having you, our Chancellor, present to lay this stone.

"My acquaintance with the affairs of this University has been short, but I hope I may be permitted before I conclude to say a few words more not altogether unconnected with the buildings, I trust at no remote period to see standing on this site. It seems to me that far too large a proportion of the students who come here come solely with one or other of two objects, namely, either to qualify for Government employment, or to qualify for the legal profession. Now it is quite clear (apart altogether from the important question of the fitness and suitability of the candidates) that the number of Government appointments must necessarily be limited, and that only a limited number of men, even in this country, can make a legitimate livelihood at the legal profession. The result is an ever-increasing body of men who have experienced the bitter disappointment of failure, perhaps through no great fault of their own. It is of course right and proper that men ambitious of Government service and of following the legal profession should have facilities for education and training, but I long to see the advent of students who have other pursuits in life in view with a good strong leavening of those who will come with the real object of learning for learning's sake.

"It seems to me that the possession of University buildings will at least tend in this direction.

"May I now have the honour of asking you to lay the foundation-stone of the Senate Hall of the University of Allahabad."

THE CHANCELLOR'S ADDRESS.

The Chancellor then addressed the gathering as follows :—

“ Mr. Vice-Chancellor, Members of the Senate, Ladies and Gentlemen :—

“ The Allahabad University came into being over 22 years ago, and I cannot help feeling that it is a reproach to the public spirit of the United Provinces that no serious effort has hitherto been made to give it a local habitation. Not a few of us here to-day were educated at public schools and colleges in the United Kingdom which enjoy the inestimable benefit of ancient buildings, rich in associations and dating back to the time when, in the midst of war and turmoil, great ecclesiastics and great barons set aside large sums of money to provide proper accommodation at school and college for the youth of Great Britain. The name of the founder has been regarded with veneration for generations : his benefactions are constantly thought of with gratitude, and their influence permeates the everyday life of those who are brought up within the buildings which he raised. Here in India the main functions of our Universities are to examine. Our University does not teach, though I hope that in time it will do so. The need for some material sign of its existence is certainly not less than in the case of Universities which combine both functions. Alone of the Universities in the country ours has no building of any kind that it can call its own. It exercises control over a larger population and a wider area than any University except that of Calcutta, and the fact that its authority extends to the Central Provinces and the States of Rajputana and Central India, as well as throughout the United Provinces, makes it particularly desirable that it should be housed in buildings which would

represent to the students from these widely differing areas the central authority of the educational system which extends to them all. This is not the time to discuss the character of the education which our Universities give, but I may say this much, that with you, Mr. Vice-Chancellor, I deplore its general tendency to flood the country with a continuous stream of candidates for Government service and the legal profession, which those avenues of employment are quite unable to absorb. You know, Sir, how deeply impressed I am with the need for developing the resources of the country and for organising an industrial and practical side in our educational system. I think with you, that the provision of buildings worthy of our University should not be without its effect on the aspirations of those whose education it controls. I fear that the University is regarded by most young men as a means for the acquisition of the requisite amount of knowledge to pass examinations qualifying them for Government service or a profession. That is a very poor ideal of a University. Let us hope that we may look forward to the development of *esprit de corps* and of pride in the University, and that a desire to pursue learning for itself may be fostered by our proceedings of to-day which will ultimately result in a good supply of men ready to devote their lives to research.

"Almost from the very beginning of my term of office as Chancellor of our University I have put it before me to endeavour to get something done before I resign it to ensure the necessary buildings being provided for the University. Those present here to-day will realise that the calamity which fell on the Province two years ago compelled me to put the idea out of my mind, but I continued to look forward to the day when brightening prospects should make it possible to make a start. The particular need for accommodation for the students at the Law College brought the matter into prominence again early last year. In pursuance

of a policy which has been definitely accepted, we have been endeavouring to collect in Allahabad students who, after taking the ordinary degree, wish to proceed to the further and post-graduate study of law. There have been up till now, at the different arts colleges of the Province, classes for the study of Law, conducted usually by a single teacher, often inadequately remunerated, and without facilities for consulting the authorities necessary to enable a student to master the difficult subject of Law in an effective manner.

"It is palpable that nothing can possibly be worse than to turn out bad lawyers, and our endeavour has been, by concentrating the study of Law at the Law College at Allahabad, where an efficient staff of lecturers can be provided, and where in time a thoroughly good library can be collected, to ensure that any embryo lawyer shall be able to make himself familiar with his subject. Arrangements for the Law College have not yet been thoroughly completed, and pending the arrival of the Principal from England, the management of the College has been most efficiently performed by Mr. Sorabji. One of the matters which Mr. Sorabji has found it necessary to represent to the University is the difficulty of having an efficient Law College without the requisite buildings. You, Mr. Vice-Chancellor, have remarked that your connection with the University has been short, but I hope I may be permitted to say that, short as it has been, it is recognised by all that the energy, tact and judgment which you have brought to bear on the conduct of your office have had the most beneficial effect on the affairs of the University. On receiving the communication from Mr. Sorabji you lost no time in asking me to meet the Building Committee which consists of a previous Vice-Chancellor, the Hon'ble Pundit Sundar Lal, as enthusiastic as yourself, and the Director of Public Instruction. We came unanimously to the

conclusion that the time had arrived when the University must take some definite steps to provide itself with the buildings it required, and Mr. de la Fosse was empowered to write at once to Sir Swinton Jacob and ascertain whether he would undertake the work of being our architect. This duty Sir Swinton Jacob very kindly undertook. When I was here in July last I went over the site with Sir George Knox, Pundit Sundar Lal and others, and we found that the compound in which we now stand would amply accommodate the buildings which are necessary. Sir Swinton Jacob shortly afterwards visited Allahabad, and has now prepared plans, which to my mind and I believe to the mind of the Committee which has been engaged in dealing with the matter, will provide us with buildings as good as any University in India has. I hope that you will not think me tedious if I give a description of the buildings which are proposed, based on information which Sir Swinton Jacob has kindly placed at my disposal.

DESCRIPTION OF THE PROPOSED BUILDINGS.

"Three buildings have been designed. The main building will be in the centre about 300 feet distant from the Church Road. The Law College, the second building, is intended to be on the east side of the main building, and the library on the west. Both buildings will be thrown back somewhat with a clear space for a carriage-drive between them. The main building in the centre will be 376 feet long and 175 feet deep. It will include a large central hall for examinations and for Convocation, 130 feet long and 60 feet wide, with verandahs in front and rear. At each end of it are two halls, each 52 feet by 36 feet, for the meetings of the Senate or Faculty, and for committees. These halls can also be used for examination purposes should extra accommo-

dation be required at any time. For Convocation the main hall and the side and end galleries provide 11,304 square feet. The galleries and balconies projecting from them afford convenient spaces for spectators. For examination purposes, allowing each student 25 square feet, the main hall will accommodate 312, and the two adjacent halls 74 each, making a total that can be accommodated of 460. The building will also include rooms for the Registrar and his office, for the Vice-Chancellor, and for visitors for robing and other purposes, and special accommodation will be provided for ladies, European and Indian. In the centre of the main building it is proposed to have a clock tower, the dial of which will be about 100 feet from the ground. The estimated cost of this building is about 5 lakhs and 20 thousand rupees.

“ Let us now turn to the Law College. This is intended to be a separate double-storied block with wings on both sides comprising half a quadrangle. Two large lecture halls have been provided, each 45 feet by 30 feet, with a tutorial room and a spare room attached to each. Rooms have been provided for the Principal and for the office. There will be a common-room for the students, and refreshments and water rooms for both Hindus and Muhammadans. The estimated cost of this building is Rs. 2,88,000. The third building is the Library. This, as designed, consists of one large main room on the ground floor about 88 feet long and 36 feet wide with rooms adjacent for the Librarian. Accommodation will be provided for about 64,000 volumes exclusive of an extra room for Oriental manuscripts at one end of the building. The rooms on the upper floor are designed for the use of readers and visitors. There is a main room, 36 feet by 36 feet, and two side rooms each 33 feet by 24 feet. The estimated cost of this building is Rs. 1,95,000.

" These somewhat dry details, although they will satisfy my audience that we are about to inaugurate buildings which will be worthy of the University from the point of view of the accommodation which they will afford, give no idea of the excellence of the plans prepared by Sir Swinton Jacob. I hope, however, that before long it will be possible to circulate photographs of the designs for the three different buildings so that all those interested will have an opportunity of appreciating the skill with which our architect has prepared his designs.

THE COST.

" Buildings such as those which I have described cannot, as I have pointed out, be erected for nothing, and the total cost comes to about 10 lakhs of rupees. The question is how to find this money. The University desires that the works shall be undertaken by the Public Works Department, and ordinarily this would involve a substantial addition to the cost of the buildings. This, however, the Local Government will forego. The Government of India have from time to time given Rs. 1,35,000 towards the buildings for the University. Of this sum Rs. 25,000 have been spent in acquiring the site on which we now stand. The Local Government gave, during the time of my predecessor, a lakh of rupees, and the University is prepared to contribute Rs. 40,000 from its reserve funds. Thus the total available, when we had our meeting at Lucknow, was $2\frac{1}{2}$ lakhs. Since the meeting I have been thinking what further help I could give, and I am happy to be able to say that owing to the favourable manner in which arrears of revenue have been coming in, owing to our good kharif harvest, the Local Government has been able to make over to the University a lakh of rupees from provincial funds. I have also written to the Chief Commissioner

of the Central Provinces to enlist his interest, and the Hon'ble Mr. Craddock has very kindly promised a contribution of Rs. 25,000 from the provincial finances of the Central Provinces. I have made no effort to collect subscriptions yet, but I have to mention two gifts which I have already received from Members of the Legislative Council. His Highness the Raja of Tehri has placed at my disposal Rs. 10,000 and the Hon'ble Rai Nathi Mal Bahadur has given in his own name and in that of his deceased brother, Ram Sahai, the large sum of half a lakh. Rai Nathi Mal Bahadur and the late Ram Sahai are already illustrious among the benefactors of this Province by reason of their having constructed and maintained at their own expense one of the very best secondary schools in the whole of India. I refer to the King Edward School at Khurja in the Bulandshahr district. I visited this school last year. I had been told by the Director of Public Instruction of its excellence. I can only say that I found it, when I saw it, to be better even than I had expected to find it. One of the most pathetic sights that I have ever seen was that of the late Ram Sahai, crippled by a mortal disease which was wearing his life out, nevertheless attending at the school in order to ensure its proper management. On his death-bed almost the last wish expressed by this good man was that more money should be devoted to still further improving the institution which he loved so well. I hope that other Members of Council will follow the splendid example set by Nathi Mal and the Raja of Tehri. I propose, as soon as we can get photographs made of the new buildings, to address the most important members of the community in the Province and solicit their assistance. The Vice-Chancellor will also give his help, and I have no doubt that there will be other willing helpers in collecting subscriptions within the Province. I sincerely trust that the collection of funds for an object

which so closely affects the well-being of the Province will be undertaken with enthusiasm. I am in hopes that the Ruling Chiefs of Rajputana and Central India, in whose territories there are either colleges affiliated to or schools recognised by this University, will help us to provide buildings worthy of the central institution of the educational system of which they are not unimportant parts. In the meantime the total sums to which I have referred above come to Rs. 4,35,000, and with this money in hand we are clearly justified in starting the work of the central building. In accordance with the wish which has been expressed by you, Mr. Vice-Chancellor, and by the Senate of the University of which I am proud to be the Chancellor, I shall now proceed to lay the foundation-stone of this building, and in doing so I wish all success and all good fortune to the University whose home it is designed to be."

4. The Minutes of the Meeting of the Faculty of Arts held on the 17th January, 1910, were confirmed.

5. With reference to Faculty of Arts resolution No. 24(1), dated 15th November, 1909, the Meeting considered the report of the Sub-Committee appointed to prepare text-books in Arabic for the Intermediate and the B.A. examinations of 1913 and subsequent years.

It was *resolved* that the report of the Sub-Committee be accepted—(*vide* Appendix A).

With reference to Faculty of Arts resolution No. 24(11), dated 15th November, 1909, it was further *resolved* that the Board be asked to appoint a member to propose in the Meeting of the Senate in next November necessary changes in the Regulations for the introduction of a pure Persian course in the M.A., B.A., Intermediate and Matriculation examinations.

6. The Registrar placed before the Meeting a letter, dated 15th January, 1910, from Mr. C. M. Mulvany questioning the accuracy of the Minutes of the Faculty of Arts as reported in resolution No. 24, dated 15th November, 1909.

It was *resolved* that for the remarks of Mr. Mulvany as reported in the resolution referred to above, the following should be substituted :—

“Mr. Mulvany said the University of Allahabad was demanding more from candidates offering Latin than Oxford asked from honour candidates.”

7. The Meeting considered the following proposal from Mr. C. M. Mulvany :—

“Add as para. 19, Chapter III, of the Revised Regulations :—

19. “Any member desiring that his remarks be not reported in the Minutes may give general instructions to

that effect to the Registrar, who shall thereafter in preparing the Minutes merely state that the member in question addressed the Meeting."

Mr. Mulvany addressed the Meeting in favour of his proposal. The Rev. Canon Westcott seconded the proposal.

Mr. Gardner Brown opposed the motion as unnecessary and illogical. Pandit Sundar Lal also opposed the proposal on the ground that such a rule would imply that the speeches of those members who give no instructions would have to be reported in full.

Mr. Haythornthwaite recalled the practice of the former years when all speeches were taken down in short-hand and the members given an opportunity to correct their speeches. He suggested that the practice might now be revived.

Mr. Mulvany then replied :

The proposal was put to the vote and lost.

8. With reference to Faculty of Arts resolution No. 3, dated 17th January, 1910, the Registrar reported for confirmation of the Meeting a letter, dated 28th January, 1910, from Mr. A. Venis declining to accept the Convenership of the Special Committee, and suggesting that Dr. Horovitz be requested to accept the office.

In this connection the Registrar reported that Dr. Horovitz had accepted the Convenership of the Special Committee.

It was resolved that the letters be recorded.

The report of the Committee that the subject offered by Monsoor Ahmad, for his "*Thesis*" on "*Ancient India as*

known to the Arabic Geographers and Historians," for the Degree of Doctor of Letters, was a suitable one, was presented and adopted.

9. Resolved that the courses, or changes in the courses of studies, suggested in March Meeting of 1910 by the Boards of Studies of this Faculty in accordance with Regulation 7, Chapter IV, of the University Regulations, be printed as an Appendix to the Minutes of this Meeting.

A. VENIS,

exceptional cases, the Superintendent of the Centre may, at his discretion, allow a grace of half an hour.

A. J. Archbold resigned.

- (iv) G. O. No. 242, dated 28th January, 1910, forwarding a copy of Government Order to the address of

the Accountant-General, in which the Government has made a special grant of Rs. 1,00,000 towards the construction of the Allahabad University Buildings ;

- (vi) G. O. No. 73, dated 24th January, 1910, forwarding a copy of certain correspondence resulting from the recommendations of the Royal Commission upon Decentralization, and asking for the views of the Syndicate on the subject of the appointment of visitors for Government Colleges affiliated to the University—(*vide* Appendix C.)

- (e) that the fees for the Matriculation examination of 1910 paid by Banwari Lal, who died of plague on the 26th January, 1910, be refunded ;
- (f) that the Government be informed that the Syndicate is of opinion that there is no necessity for the appointment of visitors for Government Colleges affiliated to the University as the Government Colleges in the United Provinces are not only under the direct control of the Government, but are also regularly inspected by a Board appointed by the University of Allahabad. If, however, the Government considers the appointment of such a Board desirable the Syndicate agrees with the views expressed by the Director of Public Instruction in paragraph 5 of his letter No. G-3616/V—195, dated the 8th October, 1909.

60. With reference to Syndicate Resolution No. 225, dated 19th November, 1909, the Registrar placed before the Meeting a letter, dated 27th January, 1910, from the Director of Public Instruction, Central Provinces, stating that in his opinion it is not necessary to have Harda as a centre for the Matriculation examination of 1910.

62. With reference to Syndicate Resolution No. 44, dated 12th February, 1910, the Registrar placed before the Meeting a letter, dated 24th February, 1910, from Krishna Kumar, a student for the B.Sc. examination of 1910, in which he accepted the decision of the Syndicate with certain conditions.

It was *resolved* that Krishna Kumar be asked to pay all his dues owing to St. John's College, Agra, at once, otherwise he will be excluded from appearing at the examination of 1910.

63. The Registrar placed before the Meeting an application, dated 19th February, 1910, from Phanindra Lal Moitra, asking that he, having passed the previous B.L. examination of the Calcutta University in January, 1910, may be permitted to appear for the ensuing Previous LL.B. examination of this University.

It was *resolved* that Phanindra Lal Moitra be permitted to appear for the Previous LL.B. examination of 1910.

64. The Registrar placed before the Meeting a letter, dated 1st March, 1910, from Mr. J.G. Jennings, Convener of the Board of Examiners in History, suggesting that the appointment of the Examiner in M.A. Roman History may be cancelled as he is unable to mark the answer-books, and that for the future it may be ruled that the failure of an

Examiner to mark the answer-books will annul his appointment as an Examiner.

In this connection the Registrar presented a Resolution from the Board of Examiners in History which, after amendment, was adopted as follows:—

That in the event of an Examiner in the M.A. examination proving unable to mark the paper that he is to set, the following procedure be adopted:—

The Registrar shall at once inform the Board of Examiners of the fact and the Board shall either (i) proceed to make a new appointment or (ii) where this is not expedient, divide the fee for setting the paper between the Examiner who sets the paper and the Examiner appointed to mark it.

It was further *resolved* that the instructions to Examiners should be so framed as to make it clear that in accepting the appointment the Examiner undertakes not only to set the paper but to examine the answer-books.

65. The Registrar placed before the Meeting G. O. No. 191, dated 4th March, 1910, sanctioning the payment to the University of a grant of Rs. 200 per mensem from provincial revenues towards the higher rate of pay which it is proposed to give to the Registrar—(*vide* Appendix D).

It was *resolved* that the grant made by the Government may be accepted with thanks.

66. With reference to Syndicate Resolution No. 45, dated the 12th February, 1910, the Registrar placed before the Meeting the Resolution of the Faculty of Law No. 3, dated the 8th March, 1910, in which the Faculty recommended that advertisement for the post of the Principal, University School of Law, be published in England and that the Vice-Chancellor be asked to interview candidates and recommend a name or names.

It was *resolved* that the recommendation of the Faculty of Law be accepted.

67. The Registrar placed before the Meeting a letter, dated the 1st March, 1910, from Mahamahopadhyaya Pt. Adityaram Bhattacharya resigning his Fellowship of the University.

It was *resolved* that the Registrar will write a letter to Mahamahopadhyaya Pt. Adityaram Bhattacharya expressing the hope of the Syndicate that he will for the present postpone his intention of severing his connection from the University.

(At this stage of proceeding the Hon'ble the Vice-Chancellor retired, and the Hon'ble Rai Pt. Sundar Lal Bahadur took the chair.)

68. The Registrar placed before the Meeting a letter, dated 25th January, 1910, from the Secretary of the Council of Senate of the University of Cambridge, stating in reply to a letter from the Registrar of this University that the standing committee is prepared to recommend the Council of the Senate to propose to the Senate of the University to recognise the Bachelors of Science of the Allahabad University on terms similar to those on which Bachelors of Science of the Punjab University are at present recognised and enquiring whether the University wishes to make any comments on this proposal. In this connection the Registrar further explained that as the regulations of this University at present stood the B.Sc. candidates of this University could not take Classical Language in the Intermediate and the B.Sc. examinations and they shall thus, under the regulations proposed by the Cambridge University, not be entitled to the privilege of affiliation.

It was *resolved* that the letter of Secretary of the Council of Senate of the University of Cambridge be con-

sidered by the Registrar (the Rev. Arthur H. Ewing) and Dr. E. G. Hill and they be asked to make necessary proposals for the consideration of the Syndicate.

69. On the proposal of Mr. Ward and Dr. Hill the Meeting proceeded to consider the remuneration to Examiners in the Practical examination in Physics and Chemistry for the year 1910.

It was *resolved* that—

(i) In Physics, Mr. J. J. Durack should get Rs. 50 plus Rs. 3 for each candidate,
Mr. Ward Rs. 50 plus Re. 1 for each candidate.

(ii) In Chemistry, Dr. Hill should get Rs. 50 plus Rs. 2 per candidate,
Mr. Sanyal Rs. 2 per candidate,

and that it be recorded that the services of Babu Sohan Lal Srivastava was not required.

It was further *resolved* that Dr. Hill and Mr. Ward should submit proposals for the division of work and distribution of remuneration between the two Practical Examiners.

70. With reference to Syndicate Resolution No. 30, dated the 12th February, 1910, the Registrar reported that on receipt of satisfactory reports an informal meeting of the local members of the Syndicate was convened on the 26th February, 1910, to interview Mr. Cole. The interview was considered satisfactory and the recommendation of the informal meeting was that Mr. Cole should be recommended for appointment as the Registrar.

It was *resolved* that Mr. Cole be recommended to the Senate for appointment as Registrar.

APPENDIX C.

No. $\frac{78}{XV-260}$ OF 1910.

FROM

THE HON'BLE MR. F. E. TAYLOR, I.C.S.,

SECRETARY TO GOVERNMENT,

UNITED PROVINCES,

To

THE REGISTRAR,

ALLAHABAD UNIVERSITY,

Dated Allahabad, 24th January, 1910

SIR,

I am directed to forward for the information of the Syndicate

EDUCATIONAL
DEPARTMENT.

1. Paragraph 502, Chapter XII, of the Report of the Royal Commission upon Decentralization.

2. Letter No. G. 3616-V.-195, dated the 8th October, 1910, from the Director of Public Instruction.

a copy of the marginally noted papers on the question of appointing Boards of Visitors for Government Arts Colleges, secondary schools, etc., and to say that the Lieutenant-Governor

will be glad if the Syndicate will favour him with its views on the subject of the appointment of visitors for Government Colleges affiliated to the University.

I have the honour to be,

SIR,

Your most obedient servant,

F. E. TAYLOR,

Secretary.

Copy of a letter No. G. 3616-V-195, dated the 8th October, 1909, from A. Venis, Esq., Director of Public Instruction, United Provinces to the Secretary to the Government of the United Provinces.

In reply to your letter No. 915/XV of the 6th September, 1909, I have the honour to state as follows:—

2. In the Final Educational Code, as recently sanctioned by Government, full provision has been made for School Committees, *vide* Chapter IV, paragraphs 126 to 131*. These Committees will be formed as soon as High Schools have been provincialized. The District Magistrate is *ex-officio* Chairman of the School Committee. It would therefore hardly seem necessary to make the Commissioner an additional member. He would probably be satisfied to exercise the less definite functions of a Patron or President of each District Committee.

3. Training Schools might be placed under the Committees for High Schools. The duties of these Committees as defined in the Code need in no way interfere with existing arrangements for the discipline and inspection of Normal Schools and Training Classes.

4. A Committee of eight members already exists for the management of the Industrial School, Lucknow, (*vide* Code of Regulations). Three of these gentlemen are non-officials and one of these is an Indian. If it be thought necessary to add to the total number, I would suggest the names of Rai Bahadur Prag Narayan and Maulvi Ehtisham Ali, and, *ex officio*, the President of the Chamber of Commerce, Cawnpore.

5. Government Colleges in the United Provinces are not only under the direct control of Government, but are also regularly inspected by a Board appointed by the University of Allahabad. The relations of an additional Board of Visitors to Government Colleges would therefore have to be of a more general or honorary character. Assuming that such a Board is to be brought into existence, I have the honour to suggest that it should consist of—

(a) The Vice-Chancellor of the University of Allahabad.

(b) A former Vice-Chancellor of the University of Allahabad.

* Paragraphs 62—67, revised Chapter V, of the Provisional Educational Code sanctioned under G. O. No. 594/XV-61, dated 21st July, 1908.

- (c) An Indian Member of Council (Hindu).
- (d) An Indian Member of Council (Mohammedan).
- (e) { The Commissioner of the Division.
The Agent of the Lieutenant-Governor, U. P.

and that as thus constituted it should be free to communicate with the Chancellor on all matters pertaining to the well-being of Government Colleges affiliated to the University of Allahabad.

*Copy of paragraph 502, Chapter XII of the Report of the Royal
Commission upon Decentralization.*

Position of
Commissioners
and Collectors
in respect to
primary
education.

502. *Education.*—Commissioners and Collectors have at present a considerable voice in respect of primary education, by reason of the control they exercise over the budgets and operations of local boards. We shall deal with their future position in this respect in Part III, where we propose that Collectors and their assistants should preside over the district and sub-district boards, and that Commissioners should have the power of intervention in case of grave neglect, by a local board, of education or any other service assigned to it.

They should
have greater
influence over
secondary and
Collegiate
education.

In regard to secondary and collegiate education, however, and in respect of training and technical schools, they have, except to some extent in the Central Provinces, very little influence or responsibility. Some of the educational officers whom we examined admitted that it might be expedient that Commissioners and Collectors should have a larger interest in these matters.

We consider that each of the Government institutions mentioned, viz., Colleges, secondary schools and training and technical schools, should have a Board of Visitors, of which the Commissioner, the Collector, and the local Sub-Divisional Officer, as well as non-officials should always be members; that the remarks of a member of the Visiting Board in the college or school inspection book should always receive attention and that the action taken thereon should be communicated to him. In the event of a member thinking the

condition of things such that a mere remark in the inspection book will not suffice, or that the action taken on his remarks is not satisfactory, he should address the Collector or Commissioner on the subject.* Moreover, no new institution belonging to the above category should be started, and no material alteration should be made in the status of an existing institution, without the Collector and the Commissioner being consulted, and Commissioners and District Officers should, in the course of their tours, make a point of visiting the institutions in question, and of becoming acquainted with their tone and influence.

* And the Commissioner would, if necessary, address the Director of Public Instruction or the Local Government.

I am directed to state for the information of the Senate that the Lieutenant-Governor has been pleased to sanction the payment to the University of a grant of Rs 200 per mensem from provincial revenues towards the higher rate of pay (Rs. 700 rising by annual increments to Rs. 1,000) which it is proposed to give the Registrar. The grant, which will have effect from the date, subsequent to the 1st March, 1910, from which the appointment on the higher rate of pay may take effect, will be paid by the Director of Public Instruction in lump in April of every year on the presentation of a bill for the same.

The date of the appointment should be communicated to Government.

It was *resolved* that Mr. M. G. V. Cole, M.A., Principal, Khalsa College, Amritsar, who was recommended by the Syndicate be appointed Registrar of the Allahabad University.

VII.—With reference to Senate Resolution No. XL (b), dated 17th November, 1909, the Meeting considered Mr. Ward's proposal regarding the opening of a Register of Students.

In this connection the following amendments proposed by Dr. Alex. Robertson were also considered :—

(1) In paragraph 3 of the proposed new Chapter VIII, to omit the words "or failure".

(2) In paragraph 4, to omit the words "within 14 days" and substitute the word "quarterly".

(3) In paragraph 4, to omit the word "immediately," and to add after the word "Registrar," the words "at the earliest possible moment".

With reference to the amendments proposed by Dr. Robertson, Mr. Ward explained that he and Dr. Robertson had agreed as regards regulation 4 of the proposed new Chapter VIII, *viz.*, that the words "within six weeks" should be substituted for "immediately".

With the consent of the Hon'ble the Vice-Chancellor, Dr. Robertson withdrew his amendments (1) and (3) and proposed the addition of "or any of" after the word "all" in line two of regulation 7.

Pandit Sunder Lal opposed the amendment on the ground that a copy must be true and complete, and not an extract of the good remarks only.

The amendment was put to the vote and lost.

With the consent of the Vice-Chancellor "within six weeks" was substituted for "within 14 days" in regulation 4 of the substantive motion.

Pandit Sunder Lal proposed that in regulation 7, "Rs. 2" be substituted for "Rs. 3." The consent of the Vice-Chancellor was given to the proposal, which was seconded by Rai Gokul Prasad Bahadur, and carried.

With the consent of the Vice-Chancellor the words "through the Principal" were added after the word "Registrar" in regulation 5.

With the consent of the Vice-Chancellor, Pandit Sunder Lal proposed the following regulation to be added to the "Register of Students," as regulation 8:—

- "8. Candidates permitted to sit for any University examination under the provisions of Section 19 of the Indian Universities Act VIII of 1904, by grace of the Senate, shall, on such permission being given, apply for the registration of their names in the Students' register within six weeks of their receiving intimation of the grant of the permission. Such application shall be made through the officer who originally forwarded the application for such permission along with a fee of Rs. 2, unless the applicant is already a registered student. All the regulations of this Chapter shall apply *mutatis mutandis* to such candidates."

The proposal was seconded by Dr. Hill and carried.

With the permission of the Vice-Chancellor, Mr. Ward proposed the following regulation to be added as regulation 9 in the new Chapter VIII, "Register of Students" :—

- " 9. The provision of this chapter shall come into force from and after July 1st, 1910. Such provisions shall not apply to existing students in the University, provided that nothing herein contained shall prevent any person who is now a student of the University from applying to be registered, and from being registered as a member of the University."

The proposal was seconded by Mr. Carey, and carried.

With the above additions and amendments the new Chapter was passed as a whole.

VIII.—The Registrar placed before the meeting the following recommendation of the Syndicate made at its meeting of the 17th January, 1910 :—

- (1) That the temporary affiliation of the Hislop College, Nagpur, up to the B.Sc. standard in Biology be extended for one year up to July, 1911, without inspection. When the permanent buildings are completed an inspection should be made.

It was *resolved* that in the opinion of the Senate the temporary affiliation of the Hislop College, Nagpur, up to the B.Sc. standard in Biology should be extended by one year up to July, 1911, without inspection.

With the permission of the Vice-Chancellor the Registrar placed before the meeting the following recommendation of the Syndicate made at its meeting of 10th March, 1910 :—

- (i) that the Central Hindu College, Benares, be now affiliated up to the B. Sc. standard in Physics and Chemistry.

It was *resolved* that in the opinion of the Senate :

- (a) the Central Hindu College, Benares, should be affiliated up to the B.Sc. standard in Physics and Chemistry.

IX.—The Meeting proceeded to consider the following proposals under clause (iii) of regulation 18, Chapter I of the University Regulations:—

(i) *Proposal* by Sir George Knox:—

“That Dr. Robertson be also allotted to the Faculty of Arts.”

The proposal was seconded by Pandit Sundar Lal, and carried.

(ii) *Proposal* by Mr. A. W. Ward:—

That Section I, Chapter XIX of the Regulations be deleted and the following be substituted in its place:—

1. Any Master of Science, or Master of Arts, who has taken that degree in Mathematics, may be admitted to an examination for the degree of Doctor of Science, one academical year after passing the examination for Master of Science or Master of Arts, provided always he has attended a regular course of study at an affiliated College during that year.

In this connection Dr. Ganesh Prasad proposed the following amendment:—

(1) that Section I should consist of two clauses, *viz.*—
(a) and (b);

(2) that the sentence “Any Master of Science, or Master of Arts, who . . . during that year” should be called clause (a);

(3) that the following be added as clause (b):—

Any Master of Science may be admitted to an examination for the degree of Doctor of Science in Physics or Chemistry, one academical year after passing the examination for Master of Science, provided always he has attended a regular course of study at an affiliated college during that year.

After some discussion it was *resolved*, that the proposal and the amendment be referred to the Faculty of Science for consideration.

(iii) *Proposal* by Pandit Sundar Lal :—

That the following regulation be added to Chapter XII of the University Regulations:—

“13. Notwithstanding anything contained in regulations 9, 10, 11 and 12 of this Chapter, any female candidate for the Matriculation Examination, who is not a scholar of a recognised school, may be admitted by the Syndicate to present herself for the said examination as a private candidate.”

The proposal was seconded by the Hon'ble Sir George Knox, and carried unanimously.

(iv) *Proposal* by Dr. E. G. Hill :—

That a new Chapter 24 be added to the Regulations and subsequent Chapters be numbered accordingly.

Chapter 24, Diploma in Agriculture.

I.—The Examination for the Diploma in Agriculture shall be open to—

- (i) all matriculated students and students admitted as under-graduates of the University under Chapter XI, Regulations 2, 3 and 3 (a), who

have since matriculation prosecuted a regular course of study for not less than two years at a College affiliated in Agriculture;

- (ii) any person to whom the Senate by special grace under section 19 of the Indian Universities Act of 1904 has granted permission to appear.

II.—The Examination for the Diploma in Agriculture shall be held once in every year at such place or places as the Syndicate may from time to time appoint.

III.—The Examination shall be partly by means of paper and partly practical. Every candidate shall be examined in English, Physics and Chemistry, Botany, Zoology, Agriculture including Surveying, and will be required to produce a certificate from the Principal of his College that he has performed a prescribed course of practical work in the field. The Examiners shall take into consideration the record of the student's work in the College.

The following changes and additions be also made in the Calendar :—

- (a) In Chapter IV, Regulation 4,
add vi. "Agriculture."
- (b) In Chapter V, Regulation 8,
add "Diploma in Agriculture" after L.T.
- (c) In Chapter VIII, Regulation 7,
add (d) "and that in agriculture provision has been made for practical instruction and work in the subject."
- (d) In Chapter XI, Regulation 5,
add "For the Examination for the Diploma in Agriculture Rs. 20."

- (e) In Chapter XI, Regulation 12,
add "The Examination for the Diploma in
Agriculture shall be held in such place or places
as the Syndicate may appoint."

With reference to his proposal, Dr. Hill stated that the day he forwarded his proposal to the Office of the Registrar of the University, there appeared in the *Gazette of India*, a Resolution of the Supreme Government to the effect that the said Government is not in favour of the introduction of a University degree in Agriculture in India. In view of such a recent decision by the Government of India in the matter he expressed doubts as to whether the Local Government would sanction the proposal for the granting of a Diploma in Agriculture.

With the consent of the Vice-Chancellor he was permitted to withdraw his proposal.

X.—The Registrar placed before the Meeting the recommendation of Sub-Committee, appointed by Syndicate resolution No. 71, dated 6th January, 1906, which was approved by the Syndicate in its resolution No. 208, dated 19th November, 1909, that the regulations of the University be amended so as to require each candidate who has passed the D.Sc. and Dr. of Letters examinations to pay a fee of Rs. 150 and Rs. 200, respectively, for the diplomas of the said degrees.

It was *resolved* that the Registrar be directed to request a member to propose this amendment.

XI.—Under section 19 of the Universities Act of 1904, the following applications for permission to appear at the University examinations were granted (*vide* Appendix).

XII.—With reference to Syndicate Resolution No. 173, dated the 19th November, 1908, Pandit Sundar Lal, with

XXIX.—It was proposed by the Hon'ble Mr. Justice Karamat Husain—

(1) that in Chapter XIII (5) substitute "*Persian*" for "*Persian with Arabic*";

(2) that in Chapter XIV (7) substitute "*Persian*" for "*Persian with Arabic*";

(3) that in Chapter XV (4) substitute "*Persian*" for "*Persian with Arabic*";

(4) that in Chapter XVI (6) substitute "*Persian*" for "*Persian with Arabic*."

These proposals were seconded by Mirza Habib Hosain.

The Registrar reported that the Board of Studies in Arabic and Persian also recommend the above changes.

Mr. V. R. Pandit: This subject has come before the Senate before. There was considerable discussion of the question and after the discussion the rule was inserted in the regulations. We have not been furnished with any reasons for the change now proposed. Neither the proposer nor the seconder has given any reason for the change, nor has the Board of Studies given any indication of the lines on which the motions for the change were moved. I prefer to state the objections which have been taken and which seem to have carried weight before. The idea of the whole curriculum, as embodied in the new regulations, was to require greater proficiency in some specialised branch, the Classic

group being differentiated from the Science group, and similarly with other groups. Under the present proposal, Persian would be raised to the same level as Arabic or any classical language, such as Latin, Greek, Sanskrit, Hebrew or any other. I do not profess to say whether that step is wise and justifiable or not, but as far as my impression goes, it is generally considered that the Persian literature, as a language, does not stand on a par in point of richness and profundity and in point of exertions necessary for the acquisition of knowledge, with the other classical languages, such as Latin, Greek, and so on. That is merely an impression gathered, but it is a point it may be well to consider. We have unfortunately absent from this Meeting many gentlemen who possess an equal competence in several classical languages, and they would have been able to give us the benefit of their views on the matter. I have heard from gentlemen who possess a sufficient knowledge of Persian that the courses which are at present prescribed even for the M.A. Examination in Persian are nowhere near the course prescribed in similar classical languages. I think that before we make the change that is suggested, we must be perfectly sure that we are not causing detriment to the cause of education, and that we are not giving an advantage by reason of the change, to one section of the candidates over another section. I submit that in the absence of any reasons for the proposal, the reasons against it are considerable and that the proposal should not be considered by this body.

Nawab Abdul Majid : The first question to consider is, what is to be understood by a classical language ? A classical language must be an ancient language and certainly Persian fulfils that condition. Again, there is no Mahomedan in India or Central Asia by whom Persian is not prized very much. Mr. Pandit has said that Persian is not a classical language ; I say respectfully that it is.

Mr. Pundit: I said that it could not be compared with other classical languages.

Nawab Abdul Majid: If then Persian is a classical language, the question arises—Why should it not to be compared with other classical languages? It is said that Persian as used in India is not the Persian used in Persia, but it is the same Persian and there is no difference at all. I could say that it is those who do not know Persian who say that there is a difference. Another objection urged is that Persian is a very easy language to learn and that it does not come to the same mark with other languages. That would not be a good ground. If the Persian is an easy course you can make the examinations stiffer—just as the courses in the other languages are. It is also said that Mahomedan boys who come into the University and have to take Arabic with Persian have found it difficult. Persian the Mahomedan students learn easier than Arabic. Arabic is foreign to this country. Persian is not so. Probably many members knew that before. There is no cultured Mahomedan who does not know, read and write Persian as a language. Considering all this, why should not Persian be recognised by itself as a language in the University course? There is no strong argument against it. You can make it more difficult if it is too easy. Another reason is that the matter was thoroughly thrashed out and the Board of Studies have commended the proposal. Surely it is wise for the Senate to accept it? This is not a sectarian question. The proposal is a very fair one.

Mr. J. C. Jones: This question was thrashed out some time ago and the Senate decided that Persian should not form a separate course. There was the danger of Allahabad University's bestowing a cheap degree. The previous speaker has said that there is no cultured Mahomedan youth who is not well acquainted with Persian. Does it not follow from that

that the Mahomedan students that took up Persian as a course would have an advantage compared with the Hindu student? I think that he gave the case away by that. I think that the advantage that would be given is not desirable. The matter was thrashed out some years ago and the Senate were of opinion by a large majority that Persian as a separate course was not desirable. Most of us are of opinion that these regulations should be given a fair chance. Having made them we should not go back upon them. May I ask the proposer if it is possible to compose a purely Persian course that is equal in difficulty with the Arabic course?

The Hon'ble Mr. Justice Karamat Husain: When this matter was before the Board of Studies the only difficulty suggested was that Persian was easier to learn than Arabic, and the Board was asked to prepare a course for Persian of equal difficulty with the Arabic. It was unanimously reported that a course suggested was of equal difficulty. The members of the Board are experts on the subject and with every respect I submit that no gentleman who does not know Persian and Arabic has a right to compare the two languages. If I were asked to compare the Chinese and Japanese languages it would be presumption on my part to attempt to do so. The Board of Studies reports unanimously that a course in Persian of equal difficulty with the Arabic course can be prepared, and so the difficulties raised on that score have no foundation.

Mr. W. Jessé: I do not pretend to know either Persian or Arabic. For that reason I leave the matter to the Board. It seems to me that surely the Persian language cannot be so very easy that it is able to be taken by any student without a considerable amount of hard work. There was a practical difficulty to be considered in connection with the taking of the two subjects together—that of arranging the time of the teaching. It is a very difficult matter to find time to fit in

both Persian and Arabic. I maintain that it would be better to adopt the report of the Board of Studies.

Mr. Jesse added : The time that would otherwise be given to Persian is taken away and given to Arabic. The Persian course has to be rushed through and the Arabic course has to be more or less crammed into the student. If the Senate has made a mistake I think that it should admit it and go back upon it. The mistake should be rectified. Arabic would then cease to be a make-weight.

K. B. Nawab Md. Mujamil Ullah Khan spoke in Urdu.

Sir George Knox : I think it very desirable that the matter should be considered by the Board, but not by one Board alone. The standard should as far as possible be kept even at a Meeting of the three Boards. Otherwise we shall run the risk of lifting the status of one Board above the status of the others. I have received complaints, whether justified or not I do not know, that one of the Board's standard has been raised to a much higher level than that of the other two ; and the very knowledge that these complaints have been made, shows how desirable it is that the three Boards should as far as possible combine. I propose that the matter go back to the three Boards and come up for report from them and not from any one Board.

Mr. Justice Banerji : I support the amendment.

Pandit Sundar Lal : Persian has undoubtedly been recognised as a classical language and the whole question in the past has been whether it was possible to prepare a course of equal difficulty with the Sanskrit course. I believe that with more justice it has been said that the course in Persian was too easy—that it was not fair to place its separate study into the hands of people who had learnt it for generations and generations. There is no doubt that Persian is taught

very early in many instances—long before the Mahomedan student joins these two classes. Persian contains many Arabic words and a certain amount of knowledge of Arabic grammar and composition would certainly facilitate a knowledge of Persian. There is no reason why a man should not know Arabic grammar. The whole question is, that we do not want to throw any difficulty in the way of Persian. It should be cultivated as it has been in the past. As to the best way of dealing with the matter, of course it is necessary that the Persian course should be equal and it should be upon a proper footing. A little Arabic has been added in other Universities. We may have a certain amount of Arabic ; in the regulations the quantity is not defined. We want to consider whether it is not in the interests of Persian itself that a little Arabic grammar and composition should be added. You will find, that in learning Persian the man who does not know a little Persian will be in a much worse position than the man who does. But there are members of the Senate who have great misgivings as to whether we can prepare a course of equal difficulty in both cases. I agree that the matter should be considered by the three Boards. I regard Persian as the language to be first considered, but I should not like the course to leave out Arabic.

A suggestion that the words “and that it should be brought before the Faculty” should be added to the amendment was accepted by the proposer of the amendment.

Mr. Justice Karamat Husain : If the members of the Boards knew Sanskrit, Latin, Greek, Persian, and Arabic, certainly they would be in a position to decide this matter. But otherwise, how can they be in a position to decide whether they be on the same level or not. It is absolutely impossible. The Board of Studies has unanimously decided that a course can be prepared in Persian of equal difficulty with Arabic.

On the question being put to the vote the following amendment was *carried* :—

That the matter be referred to the three Boards of Studies, *viz* :—

(a) Sanskrit, (b) Greek, Latin and Hebrew, and (c) Arabic and Persian, and that it should come up before the Faculty of Arts with a joint report from all the three Boards of Studies.

Sir George Knox to be the convener of the Joint Boards.

XXX.—The Meeting proceeded to consider the following proposal by Dr. Ganesh Prasad—

- (1) that regulation 11 of Chapter XVI of the regulations of the University be deleted.

Dr. Ganesh Prasad moved: That regulation 11 of Chapter XVI of the regulations of the University be deleted.

. My reason, he said, is simply this—that the regulation is absolutely meaningless. I trust that there will not be the slightest opposition to my motion—it is to clear up an obscurity of words. In 1908 the Dean of the Faculty of Science brought forward a proposal to grant an M.A. degree in connection with Physics and Chemistry, but since then it has been abolished. Thus I contend that the present regulation is absolutely useless, and that a new regulation may be suggested in connection with the M.Sc. In the first place the Regulation is very carelessly worded. The present regulation is useless, I repeat, and further quite meaningless because there is no power to hold an examination for any of the subjects in question. I would ask for a ruling whether section 11 is to be considered as continuing section 5 or not. It is implied that candidates can obtain a degree in subjects additional to those in section 5.

Mr. Ward: I oppose the motion. Under section 11 any one who has passed the B.A. examination in Physics and Chemistry may come in for the M.A. for the future. At present no one could take the B.A. degree with Physics and Chemistry. There are some who have, and why should we exclude them? They cannot go in for M.Sc. because they are not B.Sc.s.

These students are not provided for under the regulations. They are allowed to take Physics or Chemistry in the M.A. examination.

Dr. Prasad: If the present regulation does no good, it does harm.

The motion being put to the vote was *lost*.

XXXI.—The meeting proceeded to consider the following proposal by the Hon'ble Sir George Edward Knox:—

“that Mr. W. Jesse be added to the Faculty of Arts.”

The proposal was seconded by Mr. T. C. Jones and *carried*.

It was also proposed by the Hon'ble Rai Sundar Lal Bahadur and seconded by the Hon'ble Sir George Edward Knox, that Mr. V. R. Pandit be added to the Faculty of Law.

The proposal was *carried*.

XXXII.—The Registrar reported receipt of—

(a) G. O. No. 162, dated 24th February, 1910, sanctioning the affiliation of the Higher Grade Training College, Allahabad, up to the standard of *Licentiate of Teaching* with effect from July, 1909,

(b) G. O. No. 433, dated 17th May, 1910, sanctioning the extension of the temporary affiliation of the Hislop College, Nagpur, up to the B.Sc. standard in *Biology* for a further period of one year, up to July, 1911, without inspection, as recommended by Senate resolution No. VIII, dated 11th March, 1910 ;

(c) G. O. No. 522, dated 11th June, 1910, sanctioning the affiliation of the Central Hindu College, Benares, up to the B.Sc. standard with the optional subjects *Mathematics*, *Physics* and *Chemistry*, as recommended by Senate resolution No. VIII, dated 11th March, 1910.

It was *resolved* that the Government orders be recorded.

(b) G. O. No. 421, dated 14th May, 1910, sanctioning the introduction of a new Chapter, *viz.*, Chapter VIII, "Register of Students," to the University Regulations—(*vide* Appendix G), as recommended by Senate resolution No. VII, dated 11th March, 1910 ;

(c) G. O. No. 502, dated 2nd June, 1910, sanctioning the inclusion of a new regulation regulating the admission of female candidates to the Matriculation Examination as private candidates,

as recommended by Senate resolution No. IX (iii), dated 11th March, 1910;

(d) G. O. No. 503, dated 2nd June, 1910, sanctioning the constitution of a Faculty of Medicine and the consequent amendments to Chapters III and IV of the University Regulations,

as recommended by Senate resolution No. XII, dated 11th March, 1910.

It was *resolved* that the Government orders be recorded.

(e) In connection with (d) above it was proposed by the Hon'ble Pt. Sundar Lal and seconded by Qazi Aziz-ud-din Ahmad, Khan Bahadur, that the following gentlemen constitute the Faculty of Medicine :—

1. The Hon'ble Colonel C. C. Manifold, I.M.S.
2. Lieutenant-Colonel J. F. MacLaren, I.M.S.
3. Major H. Austen Smith, I.M.S.
4. Rev. Dr. A. Robertson.
5. Muhammad Abdur Rahim Khan, Khan Bahadur,
Civil Assistant Surgeon.
6. Dr. E. G. Hill.
7. Dr. A. D. Imms.
8. Dr. W. Huntly, M.A., M.D.

It was *resolved* that the Faculty be constituted as proposed.

XXXIV.—Applications under section 19 of the Universities Act of 1904, for permission to appear at the University Examinations of 1911, were granted—(*vide* Appendix H).

XXXV.—Under clause (iii), regulation 18, Chapter I, of the University Regulations, the Meeting proceeded to consider the following proposals :—

(a) Proposal by the Hon'ble Mr. de la Fosse—

I move the following additions to, and changes in, the regulations :—

CHAPTER XIII.

That regulation 9 should be altered to run as follows :—

“ A scholar who is pursuing his studies elsewhere than at a school or educational institution of any kind, and who desires to offer himself for matriculation as a private candidate shall, not less than six months before the date fixed for the next Matriculation Examination, send an application to the Registrar through a Divisional or Circle Inspector or Chief Educational Officer of a Native State in the prescribed form setting out :—

- (i) his age at the time of the application,
- (ii) the conditions under which he has been studying and is now proposing to continue his studies,
- (iii) the school, if any, at which he last studied, the class to which he was last promoted, and the date of such promotion and his conduct as entered in the Scholars' register.”

CHAPTER XIV.

(2) That for regulation 2 the following be substituted :—

“ Inspecting officers of an Education Department, school-masters teaching in schools recognised by the University or by an Education Department within the territorial jurisdiction of the University, demonstrators serving in an affiliated college and women may be admitted to this examination by special grace of the Senate, provided that by the date of the examination not less than two academical years shall have elapsed since the date of their matriculation.”

(3) That a new regulation be inserted after regulation 2 as follows :—

Before a candidate will be permitted to present himself at the Intermediate Examination in any Science subject for which a practical course is necessary under the Regulations, he shall produce a certificate from the Principal of an affiliated college to the effect that he has completed the required course in the college laboratories.

CHAPTER XV.

(4) That in regulation 2 the sub-heading '(a)' be omitted and the words 'and (b), etc.,' down to the end of the regulation.

(5) That after regulation 2 a new regulation be inserted as follows :—

"The Senate on the recommendation of the Syndicate may grant permission to appear at this examination to inspecting officers of an Education Department, schoolmasters teaching in schools recognised by the University or by an Education Department within the territorial jurisdiction of the University, and demonstrators serving in an affiliated college, provided that at the time when they present themselves for examination not less than three academical years shall have elapsed since the date of their passing the Intermediate Examination.

The *proposal* was seconded by the Hon'ble Rai Sundar Lal Bahadur and *carried*.

(b) **Proposal** by Mr. Ward—

"That section 14, Chapter XII, of the regulations be amended by the addition of the following clause :—

"The names of those who have passed the B.A. or B.Sc. Examinations shall be published in two respective lists, arranged alphabetically, with a marginal reference giving the College to which the candidate belonged, and the optional subjects in which he has passed. Separate lists referring to

individual subjects, *e.g.*, English, Sanskrit, Mathematics, Chemistry, etc., shall also be published containing the names of successful candidates considered by the examiners worthy of a first or second class in these individual subjects."

In moving his proposal Mr. Ward pointed out that the present practice of the University is to give the result of the B.A. and B.Sc. Examinations in three different classes. Nothing is indicated in the list that a man has done well in special subjects. I propose that the names of the successful candidates be published in two lists, arranged alphabetically, with marginal references in regard to the subjects passed in. Then the public will know the merits of the students.

Rai Ram Saran Das Bahadur *seconded* the proposal.

Pandit Sundar Lal pointed out the extra work that would be caused by the proposal in addition to the delay that would be entailed.

Sir A. MacRobert: I would point out that the University is not staffed as it should be if this proposal is carried.

Mr. T. C. Jones: I strongly object to this proposal, because it would have the effect of giving the appearance of honours to a pass degree.

Thus an Indian student going to England might truthfully inform the University authorities there that he had taken "a double first" at Allahabad, and he would then be considered as having taken a high *honours* degree, whereas in reality he would simply have done fairly well in an easy *pass* degree examination.

Mr. Jennings: I do not see the advantage of an alphabetical list. I suggest that the list be arranged alphabetically simply as regards colleges.

Mr. Ward: I would accept that.

The Vice-Chancellor: The staff is not overmanned here, and the additional work would be very great indeed. I think we should hesitate before passing this resolution.

Mr. Ward: These returns would not go to the Registrar, the various sub-committees would deal with them. Instead of the work in the Registrar's office being increased it would be decreased.

Mr. de la Fosse: There would be from the point of view of the Education Department a definite advantage in this proposal, because it would be enabled to know exactly in what subjects a man was strong. At present the great difficulty is to find out the subjects which the teacher is really qualified to teach.

It was *resolved* on the proposal of Rai Sundar Lal Bahadur that the question be referred to the Syndicate.

(c) Proposal by Mahamahopadhyaya Dr. Ganga Nath Jha—

I.—That in Chapter XII, section 3, after sub-section (b), the following should be added :—

“ Provided in every case that the candidate shall have completed his sixteenth year before the opening day of the session in which he seeks admission.”

II.—That in Chapter XIV, section 1, after sub-section (iii), the following should be added :—

“ Provided in every case that the candidate shall complete his eighteenth year on the day fixed for the commencement of the examination.”

III.—That in Chapter XV and Chapter XVIII, section 1, after sub-section (iii), and section 1, after sub-section (ii), respectively, the following should be added :—

“ Provided in every case that the candidate shall complete his twentieth year on the day fixed for the commencement of the examination.”

IV.—That in Chapter XVI after section (2) and Chapter XIX after section (3), the following should be added :—

“Provided in every case that the candidate shall complete his twenty-first year on the day fixed for the commencement of the examination.”

V.—That in Chapter XVII, footnote, paragraph 1, at the end, in place of “proper person for the doctor’s degree” should be substituted the words “proper person to supplicate for the doctor’s degree.”

VI.—That in Chapter IX, after section 5, to be added :—

“No affiliated College shall admit, or send up for any examination, students taking up any subject for instruction in which the College does not make adequate provision.”

In the absence of the proposer the consideration of the question was *postponed*.

XXXVI.—With reference to Senate resolution No. X, dated the 11th March, 1910, the consideration of the following *proposals* by the Rev. Dr. Ewing was *postponed* in the absence of the proposer :—

1. Add to Chapter XX of the University Regulations a new section as follows :—

4. A candidate who has been found qualified for the degree of Doctor of Science shall pay to the University through the Registrar the sum of Rupees one hundred and fifty (Rs. 150) for the diploma of the said degree.

2. Add to Chapter XVII of the University Regulations a new section, thus :—

3. A candidate who has been found qualified for the degree of Doctor of Letters shall pay to the University through the Registrar the sum of Rupees two hundred (Rs. 200) for the diploma of the said degree.

XXXVII.—The Registrar placed before the Meeting the following resolution of the Syndicate of 9th November, 1910 (*vide* resolution No. 182), on G. O. No. 750/XV-213, dated the 12th August, 1910, with which were forwarded certain correspondence received from the Government of India regarding the alteration in the age-limit fixed for candidates for the University scholarships tenable in England by natives of India, and asking for suggestions as to whether any alteration in the rules is desirable:—

“That it may be reported to the Senate that the Syndicate is in favour of raising the age-limit to 24 for medical students, and also recommends that 24 should be read for 21 in rule 3 of the rules for ‘State Scholarships tenable at Oxford or Cambridge by Natives of India’ printed on page 416 of the Calendar for 1910.”

It was *resolved* that the recommendations of the Syndicate be accepted and the Government be addressed accordingly.

XXXVIII.—With reference to Senate resolution No. IX (ii), dated the 11th March, 1910, the Registrar reported that the Faculty of Science at its meeting held on 9th November, 1910 (*vide* Faculty of Science resolution No. 12), recommended to the Senate for its acceptance Mr. Ward’s proposal to delete section 1, Chapter XX, of the University Regulations, and to substitute for it the following:—

“A Master of Arts who has taken that degree in Mathematics, or any Master of Science may be admitted to an examination for the degree of Doctor of Science, one academical year after passing the examination for Master of Arts or Master of Science, provided always he has attended a regular course of study at an affiliated College during that year.”

It was *resolved* that the recommendation of the Faculty of Science be *accepted*.

SIR,

In reply to your letter No. 1296, dated the 29th April, 1910, I am directed to convey the sanction of Government, under section 25, sub-section (1) of the Indian Universities Act, 1904 (VIII of 1904), to the introduction into the University Regulations sanctioned by Government Order No. 524/XV—570A-5, dated the 8th September, 1905, and subsequent orders, of a new chapter, *viz.*, Chapter VIII—"Register of Students", and to the renumbering of the present Chapter VIII and the subsequent chapters.

CONVOCATION, NOVEMBER 12th, 1910.

The Hon'ble the Vice-Chancellor having declared Convocation open, the Arts, Science and Law Graduates of the year 1910, were admitted to their respective Degrees in the usual manner.

The Hon'ble the Vice-Chancellor then addressed the Convocation.

MEMBERS OF THE SENATE, LADIES AND GENTLEMEN.

SINCE I addressed you last year in Convocation, I am happy to say that the only losses we have suffered have been by the retirement of Fellows in the ordinary course or by resignation. But under the latter the University has had cause to regret the departure from its midst of Mr. Archbold, the late distinguished Principal of the M. A.-O. College, Aligarh. He took a very active part in our business in Senate, Faculty and Syndicate and his genial presence, learning and practical advice will be missed on many a University Committee. It is a matter for congratulation that we still retain the service of those who have done us such yeoman service in the past freely and ungrudgingly, and that the places of those who have left us have been so worthily filled—*uno avulso non deficit alter aureus*. Indeed, looking over the list of present Fellows, one cannot but be struck with the fact that the University has never hitherto been so strongly representative of various branches of learning as now. It is a sign of happy augury, too, that the younger generation of Fellows is throwing itself with enthusiasm into the work and is eager to take its share of duty and responsibility.

The record of the past year's work, if not epoch-making, is, at any rate, one of healthy activity and progress, and the University has carried through some reforms that are likely to have a far-reaching effect. The establishment of a Register of Students, by a regulation under which no candidate can gain admittance to any University examination, except he be registered as a member of the University, has brought all our scattered sheep into one fold and will enable them, I hope, to be better shepherded. Hitherto our graduates have felt that they owed allegiance to their Colleges only, and the University has been to them but a *nominis umbra*, a dread shadow looming darkly at examination times, but otherwise oblivious of their existence and indifferent to their welfare. The establishment of this register will, I trust, tend to make our undergraduates feel that they are in truth *alumni* of their University and that they must see to it that they conduct themselves in a manner worthy of their *Alma Mater*. They will feel, I trust, more and more that the privilege of membership thus formally conferred upon them carries with it a duty to uphold her honour and dignity wherever they may be by uprightness and sobriety of living.

"Coming events cast their shadows before them," and in anticipation of the opening at an early date of the Medical College at Lucknow the University has established a Faculty of Medicine. It will be a proud day for the University when that splendid institution, so long and eagerly desired by the people of these Provinces, for which public subscriptions flowed in so generously, is added in its calendar to the list of its affiliated institutions. Already several colleges have undertaken, or are making preparations to undertake, the teaching of Biology, so as to equip their students for admission to it. But in this connection a word of warning must be uttered. Though so extensive and so perfect an equipment for the teaching of Biology as that

which Government has recently provided for the Muir Central College cannot fairly be demanded from smaller or less wealthy institutions, Colleges must not allow their zeal to outrun their discretion in their desire to afford facilities for teaching the subject. The University will have to be firm in refusing affiliation where the provision for instruction is not entirely adequate in both apparatus and staff. It is not an easy matter sometimes to decide whether or not a College is really fitted to undertake instruction in one of the subjects included in the Arts' side, but when the question of its ability to teach a Science subject is before us, there are sure and certain tests which can and must be applied, and no amount of zeal nor professions of amendment can be accepted in lieu of what is actually provided. A College's claim to affiliation must be judged by its existing equipment alone.

In the matter of drawing up of courses of study there has been more than usual activity in some of the Boards of Studies. While seeking to minimize the chances of successful cramming, the advancement of true learning has been kept steadily in view. The charge, which is sometimes levelled against us, somewhat heedlessly as I think, that the University is raising the standard of its examinations throughout by leaps and bounds, has no justification in fact. All that is being attempted is to ensure by carefully planned courses and close examination therein that candidates shall really come up to the standard professed. In the transition from mere memorising of text-books to thoughtful assimilation of subject matter—in the progress from lower to higher ideals of learning—there must inevitably be at first some difficulty in adaptation to altered methods of study; and if in consequence failures are rather heavier than usual at some examinations, regrettable as it may be, there is no cause for despondency or consternation. We cannot expect students

to realise immediately what is wanted. They require time in which to shake off ingrained habits of work which have been almost sanctified by tradition. But we should not shrink from the course we have marked out, because it does not altogether meet with popular favour. The University owes it to its *alumni* that the certificates it gives them as testimony to their attainments shall represent genuine achievement. I see no reason to fear that the Colleges will not respond to the efforts the University is making to establish a surer and truer basis of learning, and I feel certain that every true lover of education in India will commend our policy in this respect.

To turn now to a more cheerful topic and one upon which all can unite in expressing satisfaction. Great strides have been made with the project for providing the University with a habitation of its own. The plans prepared by Sir Swinton Jacob, an architect whose work has always a marked distinction and a suitability to Indian surroundings, will be on view in the Exhibition shortly to open in Allahabad. They have been carefully examined by the Building Committee of the University and approved both by it and the Chancellor. The public will now be able to judge for itself as to their merits; but I have no fear that the verdict will be otherwise than one of unqualified approval. The plans include a Senate Hall with offices and committee rooms, a Law College and a University Library. When the buildings are completed (and the Senate Hall is already making rapid progress), they will amply provide for all our needs, and Allahabad will be enriched by a noble pile. We have not yet collected all the money we need for carrying out the whole scheme, but with Government assistance and the donations promised and received, we can count upon some Rs. 7,00,000. Not only the nobility and gentry of the United Provinces but ruling chiefs in Central India and

Rajputana have generously subscribed, and the Government of the Central Provinces has promised a donation. Nevertheless further donations are urgently needed. I feel that our graduates (and even undergraduates) might do a good deal if they made our necessities known in the districts from which they come. I would remind them that a number of modest subscriptions may be just as effectual, nay, even more effectual, than one or two large ones. We all are apt to take most interest in work in which we have had some hand according to our ability.

While offering thanks to our generous Patrons, we must not forget how much we owe to the energy and initiative of our present Chancellor. It would be difficult to exaggerate his services to the University in this matter. He threw himself heartily into the scheme from the first, helped with his ever sound advice at every stage, and when the time arrived for inviting subscriptions personally appealed to his many friends for help and made a further grant from Government of one lakh of rupees. Last but not least, he has sanctioned the preparation of estimates free of cost and the construction of the buildings by the Public Works Department free of all charges for supervision. By these signal services he has ensured that his name already so worthily associated with education, will ever be kept in grateful remembrance by this University.

We have to congratulate ourselves upon a splendid windfall that has come to us during the year. A sum of over Rs. 75,000 has been received from the Queen Victoria Memorial Fund as an endowment for founding Readerships for research work. The institution of University chairs was recommended by the Universities' Commission of 1904 for this very purpose, and it has been a cherished hope for many years amongst us that our University should be able

to do something for the promotion of research among its graduate members. But we have hitherto for lack of funds been quite unable to make a move along these lines. Now, however, we shall be able to make a beginning, and though it must be in a very modest way at first, it inaugurates a new and important era in development, and as time goes on let us hope, it will attract other benefactions, till we have at length sufficient funds for research in all the directions of University study.

In closing this brief address to you, I must offer my congratulations to all those who have been admitted to degrees to-day. For many their student days are closed, for some there are still higher flights of learning to ascend. But whether their College careers are ended or not, they should never forget their membership of this University and the duties and privileges it imposes and confers, and should avail themselves of every opportunity to influence the younger generations of students to live orderly and studious lives. There is much need at the present time, though I am happy to say that the conduct of our students does not call for any particular animadversion, for men of sober views and matured opinions to interest themselves actively in those who are to follow after and endeavour to dissuade enthusiastic but easily misled youths from following "wandering fires." There is, so it has seemed to me, too general a tendency to leave the direction of the lives of students to Teachers and Professors. Though the influence of the Teacher's character is perhaps the most potent force in moulding that of a student, yet in Colleges in which the residential system does not prevail it cannot be exerted to the full. There is therefore every need for parents, relations and older men to keep a watchful eye upon the student community, which in large cities is constantly exposed to dangerous outside influence, and to warn those who appear to be wandering from the

right path. They will listen to none more readily as to those who have passed through the same student life as themselves and know at first hand and can therefore sympathise with their difficulties. To the graduates of the University the duty of helping and guiding aright those who are following in their own footsteps should be a secret trust never to be laid aside.
